RE: Additional Information Request for Permit 96-9460

Dear Mr. Davis:

On February 23, 2010, you filed an application for permit to appropriate water for a irrigation, stockwater, domestic and fire protection use in the NENW ¼¼ of Section 29, Township 55 North, Range 3 West. The application was approved and water right permit 96-9460 was issued on July 28, 2010. On July 10, 2015, you filed a proof of beneficial use statement claiming that you developed the uses under water right permit 96-9460.

I am now trying to verify the water use under 96-9460, and license this water right permit. I have attached a map of your property described in the permit. Please identify the five acres of land irrigated by drawing a line around those acres.

It would also be helpful if you could send me any information that you have on your pump and a brief description of your distribution system.

If you have any pictures of the property showing the pump, home, and any irrigation, we would appreciate it if you could send that information to us as well.

You can request that IDWR personnel go into the field to collect this information accompanied by a member of your staff/organization. For this to occur, please contact me with the name, telephone number, and email of your representative and the representative must be available to be contacted and for scheduling of the required visits within thirty (30) days. IDWR must also receive the contact information of your representative in a timely manner.

If I do not receive the requested information from you within thirty (30) days, I will take action to void your permits under the provision of Section 42-219(8) of the Idaho Code.

If you have questions regarding this matter, please contact me at 287-4910.

Respectfully,

Clay A. Webster
Water Resource Agent
