RE: Water Right Permit No. 91-07280

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. I verified your water use and found that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on my review of the water use, I found that there is no home on Tract 17 of the St. Joe Riverside Tracts. You have developed a small irrigation use but it is not associated with any residence. That means the nature-of-use on your permit must be changed from domestic to irrigation.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee within 14 days.

If you have any questions, please call me at 208-287-4946.

Sincerely,

Michele D. Edl (E.I.T.)
Senior Water Rights Agent
