Re: Hulme Dairy LLC

Dear Mr. Merritt:

Hulme Dairy LLC is submitting to IDWR at this time two transfer applications to finalize the accomplished transfers of irrigation to stock and commercial water for an existing dairy facility. The dairy facility is located north of Hazelton, Idaho.

The first transfer includes water rights 36-15690, 36-15692 and 36-15694. The ownership of these water rights will be changed to Hulme Dairy LLC. The beneficial use will change to stock and commercial water. The period of use will be changing to 1/01 through 12/31. The POU and POD will also be changing. The associated transfer and change of ownership fee for these water rights is \$275.00.

The second transfer includes water rights 36-1566, 36-15668 and 36-15670. The ownership of these water rights will be changed to Hulme Dairy LLC. The beneficial use will change to stock and commercial water. The period of use will be changing to 1/01 through 12/31. The POU and POD will also be changing. The associated transfer and change of ownership fee for these water rights is \$575.00.

No ESPA Model analysis was necessary for these transfers due to the proximity of the existing dairy wells and the proposed irrigation wells that were never drilled.

The change of ownership fee of \$100.00 for 36-15704, 36-15706 and 36-14421 is included in the submitted check to.

Please contact me if you have any questions.
