Notice of Change in Water Right Ownership

1. List the numbers of all water rights and/or adjudication claim records to be changed. If you only acquired a portion of the water right or adjudication claim, check "Yes" in the "Split?" column. If the water right is leased to the Water Supply Bank, check "Yes". If you are not sure if the water right is leased to the Water Supply Bank, see #3 of the instructions.

Water Right/Claim No.	Split?	Leased to Water Supply Bank?	Water Right/Claim No.	Split?	Leased to Water Supply Bank?
78-10168 ✓	Yes ☐	Yes ☐	78-12282 ✓	Yes ☐	Yes ☐
78-12149 ✓	Yes ☐	Yes ☐		Yes ☐	Yes ☐
78-12151 ✓	Yes ☐	Yes ☐		Yes ☐	Yes ☐
78-12153 # ✓	Yes ☐	Yes ☐		Yes ☐	Yes ☐
78-12155 # ✓	Yes ☐	Yes ☐		Yes ☐	Yes ☐

2. Previous Owner's Name: Cruickshank, Robert
Name of current water right holder/claimant
3. New Owner(s)/Claimant(s): Oarlock Cattle company
New owner(s) as listed on the conveyance document Name connector ☐ and ☐ or ☐ and/or
- 3192 Old ION Highway Jordan Valley Or 97910
Mailing address City State ZIP
1-541-586-2371 feiguren@hotmail.com
Telephone Email
4. If the water rights and/or adjudication claims were split, how did the division occur?
☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.
5. Date you acquired the water rights and/or claims listed above: 10/6/15
6. If the water right is leased to the Water Supply Bank changing ownership of a water right will reassign to the new owner any Water Supply Bank leases associated with the water right. Payment of revenue generated from any rental of a leased water right requires a completed IRS Form W-9 for payment to be issued to an owner. A new owner for a water right under lease shall supply a W-9. Water rights with multiple owners must specify a designated lessor, using a completed Lessor Designation form. Beginning in the calendar year following an acknowledged change in water right ownership, compensation for any rental will go to the new owner(s).
7. This form must be signed and submitted with the following **REQUIRED** items:
- ☒ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
 - ☒ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
 - ☒ Filing fee (see instructions for further explanation):
 - ☐ \$25 per undivided water right.
 - ☐ \$100 per split water right.
 - ☐ No fee is required for pending adjudication claims.
 - ☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
 - ☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9.

County of Ada

On this 6 day of Dec., 2015, before me the undersigned, a Notary Public, in and for said State, personally appeared Christi Smith and Scott Cruickshank, known to me, to be the Successor Trustees of the Cruickshank Children's Trust Under Trust Agreement dated December 22, 1995 Trust, and the Trustee(s) who subscribed the said Trust name to the foregoing instrument, acknowledged to me that he/she/they executed the same in said Trust name, and that said Trust executed the same.

WITNESS MY HAND AND OFFICIAL SEAL.

Notary Public: Pamela Draper
Residing at: Eagle, Id
My commission expires April 16, 2021

EXHIBIT "A"

63708AM

Township 19 North, Range 2 East, Boise Meridian, Adams County, Idaho:
Section 19: A parcel located in part of Government Lots 3 and 4, the E1/2 SW1/4 and the W1/2SE1/4 of Section 19, more particularly described as follows:

Beginning at a 5/8 inch diameter iron pin marking the Northwestern corner of said Government Lot 3 (one-quarter corner) from which an aluminum cap monument marking the Southwesterly corner of said Government Lot 4 (Section corner) bears South 00°18'57" West a distance of 2633.86 feet;
Thence South 89°09'59" East along the Northerly boundary of said Government Lot 3; the E1/2 SW1/4 and the W1/2SE1/4 a distance of 3871.85 feet to a 5/8 inch diameter iron pin marking the Northeasterly corner of said W1/2SE1/4;

Thence South 00°00'40" West along the Easterly boundary of said W1/2SE1/4 a distance of 2634.99 feet to a 5/8 inch diameter iron pin marking the Southeasterly corner of said W1/2SE1/4;

Thence North 89°02'03" West along the Southerly boundary of said W1/2SE1/4 a distance of 92.52 feet to a 5/8 inch iron pin on the Northerly right-of-way of State Highway 55 (N.R.H. Project No.130-7);

Thence leaving said Southerly boundary North 64°22'45" West along said Northerly right-of-way a distance of 4194.71 feet to a 5/8 inch diameter iron pin on the Westerly boundary of said Government Lot 3;

Thence leaving said Northerly right-of-way North 00°18'57" East along said Westerly boundary a distance of 875.92 feet to the REAL POINT OF BEGINNING.

The entire subject is considered either irrigated or sub-irrigated pastureland. The irrigated land encompasses Goose Creek. The sub-irrigated land class is near the creek and the west extremity of the property. Irrigation water is distributed over the property by a series of earthen ditches and canvass dams throughout the season until it runs short in late august, typical of the Meadows Valley.

I have summarized my review of Idaho Department of Water Resources records identifying irrigation water claims, permits or decrees appurtenant to this ownership. The creek and ditches provide good water for the livestock during the season of use throughout the ownership. All of the stock water is obtained from surface sources (creeks). Users of this report should independently verify any and all water claims, rights, decrees, or licenses that may be appurtenant to this ownership, as the status of the subject's water rights is beyond the scope of my assignment.

The surface water sources are for no more than 138.2 acres of land during the irrigation season. As discussed, the creek rights run short and are supplemented with the Brundage and Goose Lake Reservoir Company rights to all for a full season of irrigation. The subject lands without irrigation water right are the sub-irrigated areas of the ownership discussed above.

<u>WATER RIGHT NO.</u>	<u>SOURCE</u>	<u>PRIORITY</u>	<u>DIVERSION RATE</u>	<u>BENEFICIAL USE</u>
78-10168	Unnamed Drain	05/01/1960	0.73 CFS	Irrigation
78-12149	Goose Creek	05/01/1888	0.432 CFS	Irrigation
78-12151	Goose Creek	05/01/1889	0.108 CFS	Irrigation
78-12153	Goose Creek	05/01/1890	0.108 CFS	Irrigation
78-12155	Goose Creek	05/01/1892	0.875 CFS	Irrigation
Brundage Water Users Association				40 Shares-Irrigation
Goose Lake Reservoir Company				100 Shares-Irrigation

For brevity, copies of these documents have been retained in my file.

As mentioned, the subject comprises level land. It lies at an elevation of 3,900 feet above sea level. At this time, the primary vegetation consists of domestic grasses. The forage production is considered good, at approximately 5 AUMs per acre. The subject historically runs 150 pair of cattle through the grazing season. This is May 15 through October according to the tenant. This computes to 825 AUMs (150 head x 5.5 months), supporting the typical stocking rate of the neighborhood. These lands have good perimeter wire fencing, cross fencing and are all irrigated via a series of dirt ditches and canvas dams. From the condition of the fences and ditches, it is apparent the subject has been under competent management.
