Re: Transfer of Water Right 15-2063

Dear Ms. Montgomery,

I am writing to inform you of an application for transfer filed on right 15-2063. The application, filed by Dale and Lynette Price, proposes to rearrange the place of use for the water right. A copy of the application has been enclosed for your review.

Currently the Department's database is ambiguous as to the location of right 15-2063's historical place of use in T15S R35E Section 3, NWNE (Lot 2). You own property in that quarter-quarter section. The application seeks to define the water right in that quarter-quarter section entirely on the applicants' property.

The applicants claim that they have used the entirety of the water right in the place of use as proposed in the transfer application since the early 1990s. They have also provided deeds as evidence of their ownership of the water right.

If you believe that you are a partial owner of water right 15-2063, please contact me at your earliest convenience. You will need to demonstrate that you have used the right on your land consistently, including sometime within the past five years.

If I do not hear from you by Friday, October 16, 2015, I will assume that you have no objection to the transfer and I will proceed with the approval process.

Sincerely,

Cooper Fritz

Re: Transfer of Water Right 15-2063

Dear Mr. Christensen,

I am writing to inform you of an application for transfer filed on right 15-2063. The application proposes to rearrange the place of use for the water right.

Currently the Department's database lists your land in the NENW (Lot 3) Section 3, T15S, R35E as covered by right 15-2063. However, the applicant claims that he is filing the application to update the Department's database, and that the water right has not been used on your land since at least the early 1990s.

I have enclosed the transfer application for your review. If you have any questions about the transfer, please do not hesitate to contact me.

If you believe that you are the owner of a portion of water right 15-2063, and object to its removal from your land, please contact me at your earliest convenience. You will need to demonstrate that you have used the right on your land consistently, including sometime within the past five years.

If I do not hear from you by Friday, October 16, 2015, I will assume that you have no objection to the transfer and I will proceed with the approval process.

Sincerely,

Cooper Fritz

Re: Transfer of Water Right 15-2063

Dear Robert or Wanda Warren,

I am contacting you today to inform you of an application for transfer filed on water right 15-2063 by Dale and Lynette Price. The applicants propose to change the place of use for the right to reflect what they claim is its current usage, and has been its historical usage dating from the early 1990s.

In rearranging the place of use, the application officially removes water right 15-2063 from your property in the NENW (Lot 3) of Section 3, T15S, R35E. The application has been enclosed for your review.

Your property is covered by water right 15-7225, a separate water right that will not be affected by the transfer application. The applicants claim that you developed that water right after they removed water right 15-2063 from your property. For your information, a copy of right 15-7225 is included with this letter.

If you believe that you are the owner of a portion of water right 15-2063, and object to its removal from your land, please contact me at your earliest convenience. You will need to demonstrate that you have used the right on your land consistently, including sometime within the past five years.

If I do not hear from you by Friday, October 16, 2015, I will assume that you have no objection to the transfer and I will proceed with the approval process.

Sincerely,

Cooper Fritz
