CONDITIONS APPLICABLE TO ALL RENTED WATER RIGHTS

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. This rental agreement does not authorize the construction of a well.
11. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
12. The use of water for irrigation under this rental may continue to as late as November 15, provided other elements of the right are not exceeded. The use of water after November 1 under this remark is subordinate to all water rights having no subordinated late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

MEMORANDUM

To: Water Right 51-7027
From: Clay Webster
Date: 10/7/2015
Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: The department received this end of season rental request from Jay Thomas to rent a portion of his right that will be coming out of the bank at the end of this year. He has requested to rent 5.20cfs, 1300 afs to cover two pivots totaling 260 acres.

AUTHORITY TO FILE: Jay Thomas, the current water right and property owner signed this application.

WATER RIGHT VALIDITY. This right has been leased in it's entirety to the bank since 2010. Forfeiture is not an issue. A portion of this right is rented, however there is enough remaining to cover this rental.

INJURY TO OTHER WATER RIGHTS: This rental will be diverted and used through the original POD and POU. No injury is apparent.

ENLARGEMENT OF USE: No other rights are appurtenant to this property. There are no enlargement concerns.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The rented right is not subject to a Water District.
