

MEMORANDUM

TO: Water Right File 95-9510

FROM: Daniel Nelson – Staff Hydrologist

DATE: October 1, 2015

SUBJECT: Review of Permit 95-9510

This permit was scheduled for an in-house review. However, the proof of beneficial use submitted shows a pond, and the overlap analysis shows numerous adjudication claims on this same property. None of the overlapping rights authorize storage, so it appears as though this one will need field examined to determine what is exactly going on. There is no way to do an in-house review on this permit. It has been set aside to allow staff from the Northern Region to do the field exam.
