ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, the lease term expires, or upon request from the lessor to change the term of the lease, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.

5. While a water right is in the bank, forfeiture provisions are stayed.
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season.
 - b. If a change in ownership is processed by the Department during a rental season, rental payment will be made to the person or entity who is the lessor of record at the beginning of that rental season.
 - c. New lessor(s) of record will receive payment after the following rental season.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
13. This right authorizes the diversion of an annual total of 2.8 acre-feet to be used for the replacement of losses caused by evaporation from the pond authorized under right 37-22539.
14. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.
15. The period of use for the irrigation described in this approval may be extended to an ending date of 10/31 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water after 10/15 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than June 3, 2010.

Dear Lessor:

Water Rights 37-22536, 37-22538, 37-22504, 37-22506, 37-22508, 37-22510, 37-22503, 37-22505, 37-22507, & 37-22509 were leased into the Water Supply Bank on October 16, 2015 in accordance with the executed original Lease Contract enclosed. **Your water rights as described on the Lease Contract are considered leased into the Bank and should remain unused until they are formally released from the Bank.**

The rights will automatically be released from the Bank on **December 31, 2015**, unless the rights are released earlier by the Board, or upon your request. **Please note your rights may not be available for immediate release if they have been rented.** To release the right from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available from our public website at www.idwr.idaho.gov.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, the lessor may **not** use the right without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

MEMORANDUM

To: Water Right No. 37-22536
From: Sandra Thiel
Date: 8/18/2015
Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE:

Broackway Engineering submitted 10 leases on behalf of Rodrick Rinker on May 6, 2015. The place of use for water right 37-22536 does not overlap any of the other rights so this right will be leased in separately. Beneficial uses include irrigation, and recreation and aesthetic storage. In 2010 the Department approved a transfer to change the point of diversion, place of use and the beneficial use. A condition on the transfer allowed one year for the accomplishment of the transfer objectives. In June 2011 the Department granted an extension of time until September 1, 2015. This right authorizes the diversion of an annual total of 2.8 acre-feet to be used for the replacement of losses caused by evaporation from the pond authorized under right 37-22539. Right 37-22539 is still a permit. Proof for this permit is due on September 1, 2015. On September 8, 2015 the Department received a request for extension of time for 5 years.

The application requests the full water right be included in the lease, from February 2, 2015 through February 2, 2016.

AUTHORITY TO FILE: The application was signed by Charles G. Brockway for Rod Rinker. The water right file includes a limited power of attorney that appoints Charles G. Brockway.

WATER RIGHT VALIDITY: This right was decreed in 2010. Forfeiture is not an issue, according to Administrative Memo, Multiple Programs No. 2, which established the forfeiture period for water rights.

INJURY TO OTHER WATER RIGHTS: Point of diversions from the Purdum Slough of the Big Wood River. Conditions on the water right require measuring device with totalizing meter including datalogger and lockable controlling works at the point of diversion from the Big Wood River. No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased right is subject to Water District # 37. See attached map. Both the Southern regional manager and the water master responded that they have no concerns with this application.
