Please find attached the proof reports for the water rights listed on the ownership change filed in June 2013. As we discussed there are additional issues on being able to process these application. According to our discussion you were going to look into getting a full chain of title. That may not guarantee clarity however it may provide information that would clear up some of the issues with this water right.

Water Right numbers 13-692 and 13-693 were the only two that could be processed, they have been updated, the proof reports showing Michael C Tingey LLC as the current owner is attached. I will prepare an acknowledgement letter and mail that out today and finish up that application.
