3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank.  - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season.

From: Jean Hersley

Date: September 14, 2015

Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: This application was received on August 13, 2015. The applicant wishes to place the irrigation portion of the water right in the Bank. 0.12 cfs and 6 acres. It appears some irrigation has taken place this season, 2015. Requesting information from watermaster, who has been assisting Mr. Hagen with his applications.

AUTHORITY TO FILE: Duaine Hagen, water right current owner, signed the application.

WATER RIGHT VALIDITY: The water right was decreed in 2010.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased right(s) are subject to Water District # 37B.

I was up there this spring and mid summer and there has been no irrigation. He lives in Wyoming and barely has anyone that watches over the place let alone time for irrigation. If you see anything from aerial photography it was just greening up from all the rain in May. I promise you there has been no irrigation.

I've been looking at the aerial photography for these rights and it appears Mr. Hagen has been irrigating with these rights this year. Can you shed any light on this? If irrigation has taken place this year, a letter will be sent asking him if he wants the Department to return his applications or hold them for the 2016 -2020 seasons. Thanks for your help on this.

Clay,
I talked to Duaine yesterday. The extra money is in the mail, that was my fault I advised him wrong. I told him I talked to you about the pond being dried up and NOT to put the stock water right in the bank. Those were all my fault when I helped him fill out his water bank papers.

I see that the Water Bank applications have went through for all of Duaine Hagens water rights (37-13252, 37-2191, 37-2262) except for 37-8323. Was their an issue with putting 37-8323 (diversion to storage) into the bank? Your email reply on July 21st made it sound like they would be able to put that water right into the bank. I don't see anything on the documents section of the water right saying it was rejected or anything. Please let me know what you find out.

SEPTEMBER 11, 2015**

RE: LEASE APPLICATION FEE REQUEST TO LEASE WATER RIGHT NO(S). 37-2191, 37-2262 and 37-8323 TO THE WATER SUPPLY BANK

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

Effective April 8, 2011, Water Supply Bank Rule 25.02 (also known as IDAPA 37.02.03.025.02.f) requires a \$250.00 fee be submitted with all Water Supply Bank (Bank) lease applications. The fee for a set of overlapping rights is a maximum of \$500.00. These rights are not overlapping.

The Department of Water Resources (Department) received your application(s) to lease water right(s) 37-2191, 37-2262 and 37-8323 to the Bank on August 13, 2015 without the total required fees. You submitted \$500.00 and the required fee is \$750.00. **Please submit the \$250.00 additional lease application fee within 14 days.** Without the lease fee your application(s) is considered incomplete and will not be processed.

Additional information is also needed to complete your request:

- In regards to water right 37-2191, you checked the box offering the full right to the Bank. Does this include the stockwater portion?
- With regards to 37-8323, you mentioned on your application the pipe from the creek has been capped. This water right has two points of diversion. One is from Willow Creek and the other from a spring. What is preventing the spring from filling the pond?

Once the additional application fee and information is received, your application(s) will be reviewed. If the right(s) is determined to be eligible for acceptance into the Bank, the right will be entered as of the date of receipt of the application. The acceptance date may be adjusted if additional information is required.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right. This and other water right forms are available from the Department's web site, <http://www.idwr.idaho.gov>.

Please contact me if you have any questions at (208) 287-4910.

Sincerely,
