Subject: RE: Status of protest withdrawal for T80039 in the name of Bootjack Limited

John,

I understand that the state office is reviewing language similar to what you propose based on conversations between Nick Miller (Western Region Manager) and John Bowling (IPCO). I understand the state office is considering making some of the discussed conditions standard ones that would be applied in the future but the precise language of the proposed conditions are being reviewed and may be tweaked slightly based on ongoing review.

Hopefully this will not prevent your agreement with bootjack for protest resolution. I think everyone is in agreement that the right is trust water.

Allen

I think this condition only pertains to right 37-8361.

Mr. Kerner,

Here is the e-mail we just discussed. Please confirm with Mr. Simpson you are in agreement.

Thanks

Allen

Subject: RE: Status of protest withdrawal for T80039 in the name of Bootjack Limited

Alan,

I talked with Mr. Kerner and I believe we are in agreement that the following language be included on any permit issued by the IDWR. I do not have Mr. Kerner's e-mail. Could you please forward this e-mail to him to ensure that he is in agreement. If so, I will draft a stipulated withdrawal of Idaho Power's protest in this matter.

The source of the water diverted under this right is "Trust Water" which is identified in the 1984 Swan Falls Agreement and defined as surface and ground water tributary to the Snake River between Milner Dam and

Swan Falls. Diversions under this right shall be subject to curtailment if such diversions would impact the established minimum stream flows of 3,900 cfs from April through October and 5,600 cfs from November through March at the Murphy gage. Further, this right shall be subject to review by the Director consistent with the terms limits imposed upon trust water rights issued by the State and arising out of the 1984 Swan Falls Agreement.

Thanks.

John,

It has almost been a month since I talked to your office and Mr. Kerner regarding this protested matter. It was my understanding that a protest resolution was being finalized based on right number 37-8361 being conditioned as trust water. Please let me know the status and if there is a timeframe to finalize the protest withdrawal.

Thanks,

Allen
