The water applied for enters L-31 on Applicant's property as L-31 traverses Applicant's property. L-31 injects water into Agency Creek for only a few feet before it is diverted into another headgate for L-31 to continue to Applicant's property. The spring water sought to be appropriated is tributary to Agency Creek, and therefore, within Water District 74-M. This amended application for permit is being made to resolve protests to the original application, and it also increases the diversion rate and irrigated acres to match the total diversion rate and irrigated acres of the base rights.

12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.
