Re: Revised Field Exam

The beneficial use field exam report, prepared by Nate Arave in 2007, indicates that the point of diversion is located in the SESWSE of Section 6, T13N, R36E. Review of aerial photography shows that the point of diversion is actually located in the NENWNE of Section 7, T13N, R36E. An Amendment of Permit was sent to the US Forest Service (permit holder). The USFS concurs that the point of diversion should be described in the NENWNE of Section 7, T13N, R36E and the place of use is located in the SESE of Section 6, T13N, R36E.

Revised

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
BENEFICIAL USE FIELD REPORT

Exam Date: 9/18/2007

- | 3. <u>SOURCE</u> | <u>TRIBUTARY</u> |
|------------------|------------------|
| FLAT CREEK | BEAVER CREEK |

1. Other water rights with the same place of use: none
2. Other water rights with the same point of diversion: none
