Comments:

2. jcefalo 9/16/2015 POU Update
I updated the place of use for water right 13-807 to reflect information obtained from deeds (provided with an ownership change filed by Shane Jensen in 2015), topography, aerial photos, and the location of the existing ditches. Mr. Jensen grew up in Thatcher and confirmed that the ditches from Spring Creek have not been changed over time. Water right 13-807 (still in the name of the decree owner, Alpheus Anderson) describes 150 irrigated acres. It appears that 150 acres, owned by Anderson in 1920, could have been irrigated from Spring Creek. Part of the Alpheus Anderson irrigated property falls outside of the place of use described in the 1920 decree. The current owners of these portions of the water rights must file transfers to correct the POU description.
