

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant Riverside Farms c/o Richard Crapo Phone 624-3293
Post office address Rt. 2 Box 155, St. Anthony, ID 83445
2. Source of water supply Groundwater which is a tributary of _____
3. Location of point of diversion is _____ $\frac{1}{4}$ of NE $\frac{1}{4}$ of SW $\frac{1}{4}$, Govt. Lot _____
Sec. 13 Township 7N Range 41E B.M. Fremont County; additional
points of diversion if any: NENW Sec. 13 T7N R41E
4. Water will be used for the following purposes:
- Amount: 3.04cfs for Irrigation purposes from 4-1 to 11-1 (both dates inclusive)
(cfs or acre-feet per annum)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
- Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 3.04 and/or (b) _____
cubic feet per second acre feet per annum
6. Proposed diverting works:
- a. Description of ditches, flumes, pumps, headgates, etc. 2 wells (one exists) to sprinkler lines

- b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
_____ to _____ inclusive.
- c. Proposed well diameter is 20 inches; proposed depth of well is 600 feet.
- d. Is ground water with a temperature of greater than 80°F being sought? No
7. Time required for the completion of the works and application of the water to the proposed beneficial use is
2 years (minimum 1 year).

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in KW. _____
- Stockwatering; list number and kind of livestock. _____
- Municipal; show name of municipality. _____
- Domestic; show number of households. _____
- Other; describe fully. _____

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: *D* for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
7N	41E	13					38	38	39	39	39	40							233
		14	38	11															49

Total number of acres to be irrigated 282

10. Describe any other water rights used for the same purposes as described above. 22-7035

- Who owns the property at the point of diversion? Applicant
- Who owns the land to be irrigated or place of use? Applicant
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing. _____

12. Remarks: This application is for supplemental water to bring cfs up to 0.02 cfs/acre.

13. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other:

State of Idaho
Department of Water Resources
WATER RIGHT LICENSE

License of Water Right No. 22-7035 Priority June 1, 1970 Amount 2.6 cfs

THIS IS TO CERTIFY, that REMINGTON PRODUCE INC.
of St. Anthony, Idaho, has complied with the terms and conditions of Permit
No. 22-7035 issued pursuant to Application for Permit dated June 1, 1970,
and has submitted proof to the Department of Water Resources on April 29, 1974
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 2.6 cfs of water from a groundwater source
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>April 1</u> to <u>October 15</u>	<u>2.6</u> cfs and	<u>987</u> acre feet
	from _____ to _____	cfs and	
	from _____ to _____	cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 2.6 cfs of water be diverted at any one time, and
that the amount of water to be diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
987 acre feet per year, said waters to be diverted within the NE 1/4 Sec. 13, Twp. 7N,
Rge. 41E, B.M. In the County of Fremont

Description and location of place of use:

Twp.	Range	Sec.	NE 1/4				NW 1/4				SW 1/4				Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
7N	41E	13					36	33	39	39	39	40		233	
		14	38	11										49	

Total number of acres irrigated 282

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 14th day of
April, 19 81.

Total number of acres irrigated: 282

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before **May 1, 1992**.
2. Subject to all prior water rights.
3. Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
4. The right to the use of water acquired under this permit shall not give rise to any right or claim against the holder of a senior right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
5. The Director retains jurisdiction of the permit and any license subsequently issued to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
6. Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
7. Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

RE: Applications for Permit No. 22-7648 & 22-7649

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your applications for water right permit. The applications have been assigned the identification numbers listed above. Please refer to these numbers in all future correspondence.

The Department can not proceed with the processing of your application at this time. It seeks the appropriation of water within the area covered by the civil suit of Idaho Power Company vs. Idaho Department of Water Resources, et al., Ada County Civil No. 81375 (Swan Falls Suit). Until there has been a final resolution to this suit and rules and regulations promulgated for this area has been suspended. During the interim, your application will be held in this office.

The staff in our office will be glad to answer any questions you have concerning the above matter.

Respectfully submitted,

Harold W. Jones
Water Rights Supervisor
HWJ/rb

St. Anthony, ID 83445

RE: Application for Permit No. 22-7648, & 22-7649

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Herald Chronicle on March 15 & 22, 1990. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

HWJ/tb

The permit(s) will be subject to all prior water rights. Protests may be submitted based on the criteria of Sec. 42, Idaho Code and/or the new public interest criteria of Sec. 42-203C, Idaho Code. Protests must be filed with the Director, Dept. of Water Resources, 150 Shoup Ave., Suite 15, Idaho Falls, Idaho 83402 on or before APRIL 2, 1990.

RE: PERMIT NO. P22-07649

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section

MEMORANDUM

TO: FILE 22-7649

FROM: KAY WALKER *KW*

RE: WAIVER OF RULE 4,5. ADDITIONAL INFORMATION REQUIREMENT

DATE: 19-APR-1990

=====

The location of the point of diversion falls outside the trustwater area. Normally, additional information would be required under Rule 4,5. of the Water Appropriation Rules and Regulations. However, this application is for supplemental water on a system that was developed in 1970. Possible issues that the additional information should address have probably already been raised during development and operation. The Rule 4,5. informational requirement should be waived.

Form 204
11-91

Receipt No. C0234600

Department of Water Resources

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

REQUEST FOR EXTENSION OF TIME
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 22-07649
Name(s) of Permit Holder: Riverside Farms
Mailing Address: 1908 E 500th St. Anthony, ID 83445
Date Proof is Due May 1 1992 Telephone No. 624-3293

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

This permit was for additional water. We have changed the irrigation system from hand lines to pivots last fall hoping the improved efficiency would save drilling another well. Would like an extension to see if this is the case. thakyou. Costing \$ 85,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Permit holder(s) request an extension to May 1, 19 92.

FEE: \$15.00

(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED and the time within which to submit proof of beneficial use is extended to May 1, 1995.

Signed this 12th day March, 19 92

J. Glen Saylor
Chief, Water Allocation Bureau

February 28, 1992

RE: PERMIT NO. 22-07649 PROOF DUE NOTICE

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 22-07649

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to May 1, 1995. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

O.P. # 22-90-E-016

SUBJECT: Monroe Justin well log

DATE: 8-20-90

FROM: Mark Slifka

Reference: Driller's Report changes - corrections

On 8-14-90 I spoke to Howard Andrew, the driller for the Monroe Justin well, regarding the deficiencies on the Driller's Report relative to the casing sizes and depths. Harold told me that 16" casing was set in an overbored hole to 40+ feet and driven to 263' deep. He felt the native clay produced a good seal. 10" casing was driven to 369 feet and lapped into the 16" up to 246' Below Ground Level. 8" casing was driven to 425 feet and lapped into 10" up to 343' (26' lapped). Not perforations or screening was done above 263'.

RE: PERMIT NO. 22-07649 PROOF DUE NOTICE

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1995. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: PERMIT NO. 22-07649 LAPSE NOTICE

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated February 28, 1995. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

+ - - - - Conditions of Approval - - - - - +
046 - Right holder shall comply with the drilling permit
      - requirements of Section 42-235, Idaho Code.
048 - The use of water under this right shall not give rise to any
      - claim against the holder of a senior water right based upon the
      - theories of forfeiture, abandonment, adverse possession, waiver,
      - equitable estoppel, estoppel by laches or customary preference.
049 - The Director retains jurisdiction of the right to incorporate
      - the use into a water district, require streamflow augmentation
      - or other action needed to protect prior surface water and
      - groundwater rights.
026 - Permit holder shall commence the excavation or construction of
      - diverting works within one year of the date this permit is issued
      - and shall proceed diligently until the project is complete.
016 - Prior to the diversion of water under this right a flow
      - measurement port or other device as specified by the Department
      - shall be installed to provide for the installation of measuring
      - equipment and the determination of the rate of diversion by the
      - Department.
03A - The rate of diversion of water for irrigation under this right
      - and all other water rights on the same land shall not exceed 0.02
      - cubic feet per second for each acre of land.
