Re: Assignment of Application For Permit, No. 96-9433

Dear Mr. Garrick:

The Idaho Department of Water Resources is in receipt of an assignment of permit for 96-9433 in the name of Thomas L Clark. Applications for new water rights and permits are personal property. Only when a water right becomes a license or decree that it becomes appurtenant to the land for which the right of use is granted, Idaho Code 42-220. Since Thomas and Michele filed for the application jointly, they both have a personal interest in the application; therefore, the department will also need an assignment from Michele Clark, or evidence she has given up any ownership in the application, before the transfer of ownership can become final.

Please provide the necessary assignment for Michele Clark within the next 30 days so as not to delay the issuance of the permit to you. If you have any questions, don't hesitate to contact me at this office.

Thank you.

Sincerely,

A handwritten signature in blue ink, appearing to read "Keith E. Franklin". The signature is fluid and cursive, with the first name "Keith" being more prominent.
