Re: City of Boise Geothermal Water Right Permit No. 63-9139;
Updated Map of Service Area

Dear Bob,

I am in receipt of your letter dated July 13, 2015, regarding the City of Boise's updated service area map for water right permit no. 63-9139. I have forwarded the letter and map to the Idaho Department of Water Resources ("Department") and discussed the issue with Department Staff. As your letter reflects, the issue of the service area was discussed at our last annual meeting on March 18, 2015. The Department believes the issues of whether or not an amendment is required to change the service area either now or at licensing and how the service area should be described at licensing needs to be discussed further. To that end, I will put this topic on the agenda for our next annual meeting in 2016 so that we can continue the discussion.

Sincerely,

Garrick Baxter
Deputy Attorney General
Idaho Department of Water Resources
