RE: Transfer No. 79694
Water Right No. 63-2724B

Transfer Approval Notice

Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

This Transfer of Water Right(s) creates a 1.6 acre permissible place of use for right 63-34018 (Smith portion of 63-2724B) within which the right holder may irrigate 0.8 acres within a single irrigation season. Based on information submitted with the Transfer application, it appears it is the right holder's intent to irrigate a specific 0.8 acres rather than change the irrigated acreage within the lot every year. The Department has created a 0.8 acre geographic shape to represent the acres authorized for irrigation within the 1.6 acre lot (map enclosed). Upon completion of the changes authorized by this Transfer approval, the right holder may submit an updated map depicting the actual 0.8 acres irrigated and the Department will update our geographic shape for right 63-34018 accordingly.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208)334-2190.

Sincerely,

A handwritten signature in cursive script that reads "David S. Smith". Below the signature, the letters "Sr." are written in a smaller, simpler font.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Water Right Application 63-2724B and Well Drilling Fee Upgrade

Dear Applicant:

Your recent water right transfer application proposes using your existing domestic well for irrigation. All wells drilled in Idaho after June 30, 1987, require well drilling permits. A well might need a water right along with the drilling permit, depending on the intended use of the well.

According to the records of Idaho Department of Water Resources (IDWR), your well was drilled in 2014 under a \$75 domestic well drilling permit. A \$75 drilling permit covers a well that does not require water right approval from IDWR. This is typically a single-family domestic well.

Proposed use from your well does require water right approval, and your water right transfer application seeks that approval. The well drilling fee for a well requiring a water right is \$200 instead of \$75. IDWR must collect the unpaid balance of \$125 for a well drilled under those circumstances.

Please remit \$125 to upgrade your well drilling permit within the next thirty days to facilitate processing of your water right application. Without a timely reply, IDWR will issue a preliminary order to reject the application for transfer. The application fee will not be refunded for a rejected application.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Good Afternoon Lori,

I spoke with Steve this afternoon in regards to the request for a well drilling fee upgrade (per letter sent on February 12, 2015) on water right 63-2724b. He has no record of the Smiths coming to the office and paying the additional \$125. Please have the applicants remit this fee by the end of the month (March 31st) or IDWR will issue an order to reject the application for transfer. The application fee will not be refunded for a rejected application.

Please contact me at 208-334-2190 if you have any questions.

Respectfully,

MEMORANDUM

To: Transfer Nos. 79413, 79414, 79694, 79730, 79731 & 79732

FROM: Sharla Curtis

DATE: December 26, 2014/January 20, 2015

RE: Evaluation of Applications

The transfers were filed to change the point of diversion from a well in Section 27 to individual wells drilled for the homes developed in Star Pass Ridge Subdivision, with the exception of Transfer 79413 which is to consolidate water on parts of two lots but using the original point of diversion. In some cases, SPF Engineering is shown to be the representative (shown in blue on the table below). Because these are just applications to change the points of diversion to individually owned wells, the transfers will not be advertised.

These 6 transfer applications are for rights that have been split from 63-2724B, either by previous ownership changes or through the transfer process. Right 63-2724B was decreed with a condition that limits all the rights split from 63-2724 when combined with all the rights split from 63-7610 to a total of 3.90 cfs. This condition has been maintained through all of the subsequent splits and will be retained as a condition of the transfer approvals.

Right 63-2724B was decreed for less than an inch to the acre. The total volume was also limited as a result. Therefore, all the splits were calculated using the same equation. In some cases, the result is slightly different than described by the representative on the transfer applications.

$$1.04 \text{ cfs}/120 \text{ ac} = .0087 \text{ cfs/ac}$$

$$534 \text{ AF}/120 \text{ ac} = 4.45 \text{ AF/ac}$$

Right 63-2724B was decreed for a total of 1.04 cfs, 534 af and 120 acres. The following table tracks the subsequent splits.

RIGHT #	CFS	VOL	ACRES	Transfer #
63-2724B	1.04	534.0	120	
63-33833	.28	142.4	32	
63-33998	.01	4.5	1	79731
63-33999	.01	4.5	1	79730
63-34000	.03	4.5 (12.4 af removed)	1 (2.8 ac removed)	79413
63-34001	.01	6.7	1.5	79414
63-34018	.01	7.1	1.6	79694
63-34019	.01	5.3	1.2	
63-34024	.02	9.8	2.2	79732
63-34026	.01	4.8	1.1	
63-2724B	.65	332.0	74.6	
TOTALS	1.04	521.6 + 12.4 removed = 534	117.2 + 2.8 removed = 120	

The wells to be used under these transfer approvals were drilled as domestic wells only. A letter will be sent to each of the applicants requesting the drilling permit upgrade fees and the applications will be held until such fees are paid.

Authority to File: The applicants are either the owners of record or have supplied documentation for change of ownership via the transfer process, therefore, they are authorized to file the transfers.

Water Right Validity: Right 63-2724B (the right from which all these transfer applications were split) was decreed in 2009. Transfer applications were filed just within the 5 year time frame after which the rights could be forfeited. Rights will be assumed valid and transfers can be approved.

Injury to Other Water Rights: None anticipated.

Enlargement of Use: No enlargement should occur; all totals stay the same as shown in the table above.

Local Public Interest: Assumed to be within the local public interest.

Beneficial Use/Conservation of Water Resources: The application proposes beneficial use consistent with conservation of water resources in Idaho.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Assuming other information does not contradict the above analysis, the applications can be approved as reflected by the draft approvals.

Condition 046 N/A since new wells are not proposed.
