CONDITIONS APPLICABLE TO LEASED WATER RIGHT

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department, even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, nor does it improve the status of the right or accomplish the resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment after the following rental season.
11. The water right leased to the bank is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. When combined with all other rights, the leased rights shall provide not more than 0.03 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
13. Use of water under this right is regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.

Eagle Rock Enrichment Facility (EREF)
Water Right No. 35-13855 Usage

During 2010 and 2011 timeframes, AREVA Enrichment Service undertook preparatory construction activities on the Eagle Rock site. These construction activities included land clearing in preparation for future site construction plans, road improvements for access to the site and construction technique demonstration (trenching). These activities required utilization of our site water resources under Water Rights 35-13855 for filling water trucks for dust control, soil compaction, as well as truck washing and other activities. While it is difficult to estimate the exact water volume used, these activities would have occurred over several months for this site preparation work.

James,

Thanks for the comments. I just reviewed the denial letter for Gold Emblem Farms. The department found that the transfer had partially been accomplished according to the documentation submitted with the lease application. This caused the department to evaluate a change in the nature of use for the rental.

Subject: RE: Watermaster and Regional Comments on WSB Lease application for 35-13855 AREVA

I do not have any concerns with the proposed WSB Lease. Earlier this year, Carl Taylor filed a WSB Rental Application to use this water right for irrigation in the 2015 irrigation season. The rental proposed using water right 35-13855 as it existed prior to the 2009 Transfer. In other cases, industrial rights have been rented for irrigation use. The rental was rejected, however, on the basis that the water right hasn't been used for five years. In my opinion, the rejection of Mr. Taylor's rental application was the result of an unreasonably strict interpretation of forfeiture/enlargement/historic consumptive use doctrines.

MEMORANDUM

To: Water Right No. 35-13855
From: Clay Webster
Date: 9/10/2015
Re: Review of Applications to Lease Water Rights to the State Water Supply Bank (WSB)

PURPOSE/NARRATIVE: This application was received on June 18, 2015. To place the entire right into the WSB by AREVA Enrichment Services LLC.

This right is in the ESPA. Modeling may be needed to rent this water right.

According to the Idaho SOS web site this organization was administratively cancelled. The address for this Company is reported as the same address for AREVA Enrichment Services Operations LLC. This is an existing corporation according to the Idaho SOS web site.

This right was transferred to change the nature of use from Irrigation to Industrial and Irrigation in 2009. The transfer was partially accomplished according to the documentation provided. This right must be placed in the WSB to protect it from forfeiture.

AUTHORITY TO FILE: This application was signed by Michael P. French who is listed as a member of AREVA Enrichment Services Operations LLC.

WATER RIGHT VALIDITY: This right was split from 35-2642 in 2009 in transfer 75268 by Gold Emblem Farms. 35-2642 was decreed in January of 2002. AREVA provided an ownership change for 35-13855 in 2011. 35-13855 underwent a review of the validity in 2009 during the transfer process. They are up against forfeiture this year. Upon release from the WSB, they will need to presume use in order to avoid forfeiture.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased right is subject to Water District # 120. Watermaster comments were solicited via e-mail on 9/10/2015.
