RE: Water Permit 25-7559

Dear Mr. Crawford:

I recently came across a field exam that was completed by the Department on 07/26/2001. A gentleman by the name of Steve Mueller stopped by to verify the use of a spring for stockwater. The field exam is a necessary process to verify the development of a Water Right Permit. Once this field exam is conducted the Department can then license the Water Right based on the use that was developed.

During this exam it was found that the point of diversion and place of use were different that what was recorded in the application and Water Permit. I have enclosed a copy of the Water Permit and field exam for your reference.

In order to move forward the permit must be amended to correct the place of use and point of diversion as recorded in the field exam. I am enclosing an amended permit – this corrects the point of diversion and place of use. If you concur with the locations, please sign the amendment on the highlighted area and return with the amendment fee of \$100.00. If you have any questions, please let me know.

Thank you,

A handwritten signature in black ink, appearing to read 'Kerrie Mathews', with a long horizontal stroke extending to the right.
