RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. The Lessor has filed a completed application on June 2, 2015 to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

Summary of Water Rights or Portions Leased to the Bank

<u>Water Right</u>	<u>Lease Rate</u>	<u>Lease Volume</u>	<u>Acre Limit</u>	<u>Total Leased Acres</u>
2-2186	0.26 CFS	65.0 AF	NA	13.0 AC
Combined Lease Totals:	0.26 CFS	65.0 AF	NA	13.0 AC

The water rights described herein shall be available for rental from the Bank as follows:
Authorized Period of Use under Lease: March 15 to November 15

2. **COMPENSATION:** The Lessor shall accept and the Board shall pay compensation determined by the amount of water rented under the following rental rate during such times as the water is rented from the Bank over the term of this Lease.

Minimum Payment Acceptable: Current Rental Rate

3. **TERM OF LEASE:** This Lease shall take effect when both parties have signed it and shall continue in effect until December 31, 2015.
4. **WATER SUPPLY BANK CONDITIONS OF ACCEPTANCE:** The Lessor shall abide by all terms and conditions contained in the Water Supply Bank Conditions of Acceptance, attached hereto as "Attachment A" and incorporated herein by this reference.
5. **DUPLICATE ORIGINAL:** This Lease is executed in duplicate. Each of the documents with an original signature of each party shall be an original.

IN WITNESS WHEREOF, the parties have executed this Contract on the date following their respective signatures.

ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, the lease term expires, or upon request from the lessor to change the term of the lease, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed.
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season.
 - b. If a change in ownership is processed by the Department during a rental season, rental payment will be made to the person or entity who is the lessor of record at the beginning of that rental season.
 - c. New lessor(s) of record will receive payment after the following rental season.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Place of use is within the area served by Sailor Creek Project.
13. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 2.
14. The leased portions of rights 2-2371 and 2-10032 should be considered for rental in combination with the leased portions of rights 2-2186, 2-10034, 2-10035 and 2-10477 due to combined right conditions of rights 2-2371 and 2-10032.

**RE: WATER SUPPLY BANK LEASE CONTRACT FOR RIGHTS 02-10034, 02-02186, 02-10477
AND 02-10035**

Dear Lessor:

Water Rights **02-10034, 02-02186, 02-10477 and 02-10035** were leased into the Water Supply Bank on September 15, 2015 in accordance with the executed original Lease Contract enclosed. **Your water rights as described on the Lease Contract are considered leased into the Bank and should remain unused until they are formally released from the Bank.**

The rights will automatically be released from the Bank on **December 31, 2015**, unless the rights are released earlier by the Board, or upon your request. **Please note your rights may not be available for immediate release if they have been rented.** To release the right from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available from our public website at www.idwr.idaho.gov.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

RE: APPLICATION(S) TO LEASE WATER RIGHT(S) 2-2186, 2-10034, 2-10035 and 2-10477 TO THE WATER SUPPLY BANK

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right(s) to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The rights will automatically be released from the Bank on **December 31, 2015**, unless the rights are released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your rights may not be available for immediate release if they have been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

Please note the number of acres to be leased for water right 2-10035 was reduced to 150.3 acres. In Township 06S, Range 09E, Section 10, SENE, the total acres that can be irrigated is 33. The applicant is irrigating 32 acres so only 1 acre is available to lease to the Bank.

MEMORANDUM

To: Water Right No(s). 2-2186, 2-10034, 2-10035 and 2-10477

From: Jean Hersley

Date: August 25, 2015

Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: These application(s) were received on June 2, 2015. These water rights share a common system with junior priority rights 2-2371 and 2-10032 (Man Farms, LLC and are being leased to the Bank also) that have a combined diversion rate limit condition and are under separate ownership. The rights are all managed by the same family.

The request is the same as the previous year with the exception of 2-10035. The acres were reduced from 162.6 to 156.8.

The acres offered to the Bank are pivot corners and areas around rocks. Diversion rate amounts on applications are incorrect and will be corrected on the lease contract.

AUTHORITY TO FILE: Allen Noble, registered agent, signed the applications.

WATER RIGHT VALIDITY: Water rights 2-2186, 2-10034 and 2-10477 (This water right was renumbered from 2-10248 and 2-10249) were decreed in 2009 and 2-10035 was decreed in 2011 and portions have been in the Bank since 2012.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased right(s) are subject to Water District # 2.

Jean,

I apologize for the delayed response to your email. There is some history on the fee issue with regard to these water rights. The same issue came up several years ago on these same rights. After discussions, IDWR concluded that \$500 was the appropriate fee. This was because the rights are all served by a common, pressurized delivery system, and all the rights in the system are subject to a combined diversion limit of 71.0 cfs (see e.g. 02-10032), essentially making them stacked rights. It doesn't appear that the rule has changed since then. Please review this history and then contact me to discuss. Thank you,

John

John,

The Department of Water Resources is in the process of reviewing applications to lease water to the Water Supply Bank in the name of MAN Farms and ATN Holdings. However, during the initial review process, it was determined that additional fees are needed to continue processing.

The application filing fee is \$250.00 per water right. If you are submitting more than one lease application and the water rights have an overlapping, common place of use, or a common diversion rate or volume, the total fee for all water rights is \$500.00. For places of use, multiple water rights must be used to irrigate the same lands in order to qualify for the joint filing fee. Individual filing fees are required for water rights that share a common permissible place of use but which cover separate acres within the permissible place of use.

Also, on page 2 of the application, question 3C asks: Are any of the water rights identified in question 3B stacked with the water right proposed for lease? The answer was no on all 6 applications.

Explanation: Stacked water rights are water rights that are utilized together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.

The water rights being offered to the Bank do not meet this criteria. These rights all irrigate separate lands. The total filing fees is \$1500. Payment of \$500 was received with the applications therefore an additional \$1000 is needed before the Department can continue processing these applications.

I have attached the Board resolution that addresses the leasing fees for your reference. Please note that the fees are capped to \$500 when “stacked water rights on the same parcel” is being placed into the bank. In other words, any time a water right can be separated out, even if it is within a PPU, and stand alone, a separate filing fee is due for the leasing of the right.

If you have any questions, please contact me at the number below or Cherie Palmer at [\(208\) 287-4944](tel:2082874944). Thank you.

Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.

The water rights being offered to the Bank do not meet this criteria. These rights all irrigate separate lands. Please note that the fees are capped to \$500 when "stacked water rights on the same parcel" is being placed into the bank. In other words, any time a water right can be separated out, even if it is within a PPU, and stand alone, a separate filing fee is due for the leasing of the right.

Subject: WSB Lease Applications for MAN Farms and ATN Holdings - additional fees
Attachments: 11-10 AMENDED WATER SUPPLY BANK RULES.pdf

John,

The Department of Water Resources is in the process of reviewing applications to lease water to the Water Supply Bank in the name of MAN Farms and ATN Holdings. However, during the initial review process, it was determined that additional fees are needed to continue processing.

The application filing fee is \$250.00 per water right. If you are submitting more than one lease application and the water rights have an overlapping, common place of use, or a common diversion rate or volume, the total fee for all water rights is \$500.00. For places of use, multiple water rights must be used to irrigate the same lands in order to qualify for the joint filing fee. Individual filing fees are required for water rights that share a common permissible place of use but which cover separate acres within the permissible place of use.

Also, on page 2 of the application, question 3C asks: Are any of the water rights identified in question 3B stacked with the water right proposed for lease? The answer was no on all 6 applications.

Explanation: Stacked water rights are water rights that are utilized together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.

The water rights being offered to the Bank do not meet this criteria. These rights all irrigate separate lands. The total filing fees is \$1500. Payment of \$500 was received with the applications therefore an additional \$1000 is needed before the Department can continue processing these applications.

I have attached the Board resolution that addresses the leasing fees for your reference. Please note that the fees are capped to \$500 when "stacked water rights on the same parcel" is being placed into the bank. In other words, any time a water right can be separated out, even if it is within a PPU, and stand alone, a separate filing fee is due for the leasing of the right.
