| 1. C18 | This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code. |
| 2. S39 | The use of water for irrigation under this right may begin as early as March 1, provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than the date a partial decree is entered for this right. |
| 3. | An easement or right of way agreement providing for access to the drain by its owner and those responsible for maintaining it - and/or for access to the drain by the appropriator to divert water pursuant to this right - must be executed among the appropriator, the owner of the drain, and if appropriate, those responsible for maintaining the drain. Failure to execute such an agreement will constitute grounds for legal action to prevent water from being diverted under this right. |
| 4. | While the Christian Gulch Wasteway is a natural water way, it is also a federal facility and has been utilized as part of the Boise Project as invoked by the United States through its reservation authority provided by the Act of August 30, 1890 (43 U.S.C. 945). As a federal facility, the Christian Gulch Wasteway, to the extent allowed by law, may be rerouted, piped, or its flow of water interrupted if determined appropriate to better serve Boise Project purposes. |
| 5. | The source of this water right includes waste water. The right remains subject to the right of the original appropriator, in good faith and in compliance with state laws governing changes in use and/or expansion of water rights, to cease wasting water, to change the place or manner of wasting it, or to recapture it. |

RE: Notice of Ownership Change in Water Right No's:

63-3200, 63-9212, 63-21849 & 63-21850

Dear Applicants,

The Department acknowledges the receipt of correspondence changing ownership of the above referenced water rights to you. The Department has modified its records to reflect the change in ownership and has enclosed computer-generated reports for your records.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the Department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right, to the Department. Notice of the change must be provided to the Department within 120 days of the change. Change reporting forms are available from any office of the Department, or at www.idwr.idaho.gov.

Thank you for your patience and cooperation. Please call me if you have any questions concerning the enclosed information.

Sincerely,

A handwritten signature in black ink, appearing to read 'Chad Jones', written over a horizontal line.
