WHEREAS, a drought emergency has been declared for Blaine County to allow administrative actions to lessen the severe impacts of the drought conditions in the county; and

WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a drought emergency, the director of the Department of Water Resources ("Department") is authorized to allow temporary changes in the point of diversion, the place of use, and the purpose of use for valid existing water rights or temporary exchanges of water, as provided in section 42-240, Idaho Code, when the director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, Idaho Code; and

WHEREAS, on September 14, 2015 Jerry Cenarrusa ("applicant") submitted the attached Temporary Change Application ("application") to the Department; and

WHEREAS, the Department has reviewed the application and has determined the application can be approved with certain conditions; and

WHEREAS, The applicant assumes all risk and is the responsible party if diversion and use of water under the temporary change approval causes injury to other water rights or constitutes an enlargement in use of the original right;

ORDER

IT IS HEREBY ORDERED that the application is **APPROVED** subject to the following conditions:

1. Diversion and use of rights no. 37-780A, 37-781A and 37-781B are authorized only at the point of diversion and place of use described on the application or as otherwise approved in this order.
2. This temporary change approval does not authorize construction of a new point of diversion on Fish Creek.
3. This temporary change approval may only be used to provide a replacement water supply to lands or other uses that normally have a full water supply, except for the drought condition. This temporary change

approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.

4. Rights no. 37-780A, 37-781A and 37-781B are limited to the irrigation of a total of 166.5 acres during the remainder of the irrigation season on those lands identified on the application. When these rights and all other rights for these lands are combined no more than 0.02 cfs per acre may be diverted at any one time at the field headgate.
5. The lands decreed under rights no. 37-780A, 37-781A and 37-781B shall remain un-irrigated during the remainder of the 2015 irrigation season.
6. This temporary approval does not authorize the use of diversion works or a delivery system owned by or managed by a corporation or an irrigation district without the written consent of such corporation or irrigation district.
7. The applicant agrees to hold the director and the state of Idaho harmless from all liability on account of the diversion and use of water under this temporary change approval.
8. This temporary change approval does not grant any right-of-way or easement to use the diversion works or conveyance works of another person or entity.
9. To prevent injury to other water rights the watermaster of Water District No. 37-U is authorized to administer the temporary change approval.
10. This temporary change approval expires on October 31, 2015 unless rescinded by the director. Thereafter, the water right shall revert to the point of diversion, place of use and nature of use existing prior to the temporary change approval.

DATED this 15th day of September, 2015.
