filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right	Priority Date	Source	Tributary	Rented Rate	Annual Rented Volume	Acre Limit	Total Rented Acres
31-7316	5/10/1979	Ground Water	NA	0.36 cfs	60.6 af	NA	20.2 ac

Annual Combined Rental Totals	0.36 cfs	60.6 af	NA	20.2 ac
--------------------------------------	-----------------	----------------	-----------	----------------

Term of Rental: September 1, 2015 through December 31, 2015

Rental Fee: \$1,030.20

The fee for rental of the above-described water is \$1,030.20 per year. Ten percent (\$103.02) will go to the Department for administrative costs, and the remainder will be paid to the lessor(s). No rental fees will be refunded once the fee is collected and the start date for a Rental Agreement has passed.

Detailed water right conditions are attached.

CONDITIONS APPLICABLE TO ALL RENTED WATER RIGHTS

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.

11. Use of water under this agreement will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 110.
12. The following rights are diverted through point(s) of diversion described above: 31-12283, 31-12285, 31-7104, 31-7105 and 31-11388.

**APPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANK**

RECEIVED

JUN 01 2015

DEPARTMENT OF
WATER RESOURCESApplicant Name: Kirk S. EgbertIs this application being submitted with a lease application as a lease/rental package? Yes ☐ No ☒

An *Application to Rent Water from the Board's Water Supply Bank* must be completed in accordance with the minimum requirement checklist below to be acceptable for processing by the Idaho Department of Water Resources (IDWR). This checklist is part of the rental application and must be included with the rental application. Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.

Applications to rent water should be submitted well in advance of the desired start date for the use of water. Rental applications may be submitted as early as November 1 of the year prior to the intended use of rental water. Rental applications submitted more than one year in advance of the proposed start date for water use will not be accepted and will be returned to applicants. Rental applications will not be processed if they are received after the end of the rental season of use.

One rental application per beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources. For multiple beneficial uses of water, individual rental requests should be submitted for each unique beneficial use of water.

For additional instructions on completing a rental application, visit the Department's website at www.idwr.idaho.gov.

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use, and water diversion, delivery and distribution systems. Make sure the place of use is outlined with an obvious, bolded line. For irrigation purposes, note that the place of use outlined on your map cannot exceed the number of acres you are proposing to rent. Attach the map to this application and label it Attachment 2.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe the purpose of your rental request. Include any anticipated rates of water application, water use practices or number of stock (if any). If the proposed use is not for irrigation, please provide a detailed description of the proposed use and how you determined the amount of rental water required. Attach additional sheets if required and label it Attachment 3A:

To allow irrigation with end-guns of three center pivot in Sec 33, T8N, R37E, in response to a N.O.V.

B. Enter the desired and/or minimum necessary rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Acres (if applicable) (Acre)
0.358 CFS	60.6 AF	0.358 CFS	60.6 AF	20.2 AC

Sometimes water rights available for rent provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

C. Enter the proposed start date and latest possible start date for using rental water. Also provide the number of years you would like to rent water:

Proposed Start Date (month/day/year)	Latest Possible Start (month/day/year)	* Proposed Rental Duration (Max 5 Years)	** For multi-year rentals, indicate whether you desire to rent water for remaining years if a rental request cannot be approved for the first year?	
April 1, 2015	07/01/2015 or as soon as approved	1	☒ Yes, approve rental for all remaining future years.	☐ No, return rental request if first year is unapprovable.

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Subject to the availability of rentable water. A multi-year rental that cannot begin during the first year requested may be approved for some or all remaining years, depending on availability. Rental requests will be returned if no water is available to rent in the first and/or subsequent years of the rental request.

Application to Rent Water (Continued)

- D. Refer to the map you created in item 2 and specify the location of the point(s) of diversion (POD) from which rental water is proposed to be diverted:

Water Source	TWP	RGE	SEC	¼	¼	¼	County	Other water rights for the same purpose diverted from this POD
Ground water	8N	37E	33	NW	SE	NE	Jefferson	31-12283 & 31-12285

Ground water	8N	37E	33	NW	SE	SW	Jefferson	31-7105 & 31-11388

The entry in this grid must match the map from Item 2 on the application.

- E. Do you own and/or possess the authority to divert water from the above POD(s)? Yes ☒ No ☐
If no, provide documentation from the owner/operator confirming your authorization to use the POD(s) and label it **Attachment 3E**.
- F. Do any POD(s) identified in Question 3D divert from a water source that may require water modeling? Yes ☒ No ☐
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.
- G. Has water modeling been provided with your rental request? Yes ☒ No ☐
If yes, include as **Attachment 3G**. Otherwise please explain why modeling was not provided:

Rental applications that require modeling will be returned if modeling is not provided.

- H. Specify the proposed beneficial use: ☒ Irrigation ☐ Commercial ☐ Industrial ☐ Municipal
☐ Groundwater Recharge ☐ Mining ☐ Stockwater ☐ Other: _____
- I. Refer to the map you created in item 2 and specify below the places you propose to use water. If for irrigation, specify the number of acres to be irrigated per ¼ ¼ tract. Otherwise indicate usage by marking the ¼ ¼ tracts with the first letter of your proposed use identified above:

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE

The entry in this grid must match the map from Item 2 on the application.																			Total Acres (for irrigation)
																			20.2

- J. For irrigation uses, do you propose a water diversion rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒
If yes, explain the justification for this rate of flow and attach any supporting documents as **Attachment 3J**:

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

- L. Describe your water distribution system and how water will be delivered from the POD(s) to the proposed POU(s):
Three wells with main-lines to three center pivots with end-guns.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

M. List all other water rights and sources of water at the rental place of use for the same purpose and explain why additional water is required. Include privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company, or any other water deliver entity:

Ground water rights: 31-7104, 31-7105 & 31-11388, 31-12283 & 31-12285 in response to a N.O.V.

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS - See Attachment 4.A

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the water rights you are requesting to rent. Otherwise continue to Section 5 of this application form.

Please note: Diversion rates and volumes to be rented from a leased water right must be proportionate to the per acre diversion rates and per acre volume limits of the water right leased to the Bank. Applicants should query a water right's rental availability by reviewing active lease and rental documents, searchable via IDWR's website, to ensure all elements of a water right remain available in sufficient quantity to satisfy a rental request.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany the rental request. Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.

For leased rights with combined limits, applicants should request to rent against the combined limit diversion rate, volume or acre limits.

Elements of Water Rights Leased to the Bank (Contract Details)								Leased totals minus water actively engaged in rental agreement equals rental availability	Rental Request		
Water Right Number	Nature of Use	Water Source	Rate (CFS)	Volume (AF)	Acres (AC)	Start (year)	End (year)		Rate (CFS)	Vol. (AF)	Acres (AC)
31-7316	Irrigation	Ground water	0.69	117.0	39.0	2015	2015		0.358	60.6	20.2
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre that have been leased to the Water Supply Bank								TOTAL	0.358	60.6	20.2
									CFS	AF	AC

Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B:**

STATE OF IDAHO

Application to Rent Water (Continued)

- C. Does your rental request propose to change the nature of use for any water right(s) being requested? Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented, as well as the new consumptive use amount for your proposed beneficial use. Attach a separate page if space is insufficient and label it Attachment 4C:

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☒ No ☐

If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒

If yes, describe:

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☒ No ☐

If yes, describe the date and location of the NOV.

August 13, 2014, Sec 36, T 6N, R34E & Sec 28, T6N, R35E, Jefferson County. See Attachment 5C

NOTE: This rental application are for additional acres found to have been irrigated in addition to N.O.V. acres

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO
CONSENT ORDER AND AGREEMENT**

In the Matter of Notice of Violation No. E2014-654 dated August 13, 2014.

BACKGROUND

- 1) Kirk S. Egbert ("Egbert") owns and irrigates land located within Section 36, Township 6 North, Range 34 East, and Section 28, Township 6 North, Range 35 East, Jefferson County, Idaho ("subject land"). Water Rights 31-7569, 31-12076, 31-12077, 31-12283 and 31-12285 authorize irrigation within the subject land.
- 2) The Idaho Department of Water Resources ("Department") notified Egbert by a letter dated June 16, 2014, that the acres irrigated under the above water rights appeared to exceed the acres authorized. Egbert met with Department staff on July 3, 2014, and confirmed that excess irrigation occurred in 2013 and has continued in 2014. Egbert was advised to secure a Water Supply Bank ("WSB") rental to authorize the excess irrigation for 2014.
- 3) The Department issued a Notice of Violation ("NOV") to Egbert on August 13, 2014. The NOV alleged that Egbert irrigated approximately 60 acres in excess of the acres authorized by his water rights in 2013 and 2014.
- 4) At the request of Egbert, a compliance conference concerning the NOV was held on September 3, 2014.
- 5) As of the date of the compliance conference, Egbert had submitted applications to lease water into the WSB but had not submitted application(s) to rent water from the WSB for 2014.

APPLICABLE LAW

- 1) Diversion of water and irrigation of land without a valid water right or use of water not in conformance with a water right constitutes a violation of Idaho Code §42-351.
- 2) The Department, on behalf of the director, may initiate an administrative enforcement action for designated violations of Title 42 of the Idaho Code pursuant to Idaho Code §42-1701B.

1 | NOV No. E2014-654

- 3) Idaho Code §42-1701B allows the director to seek civil penalties and other redress pursuant to an NOV.
- 4) For violations of Idaho Code §42-351, the Department may seek civil penalties up to three hundred dollars (\$300) annually for each acre irrigated without a valid water right or not in conformance with a water right.
- 5) Idaho Code §42-1701B(3) provides that the recipient of an NOV shall be entitled to a compliance conference concerning the NOV. A request for a compliance conference must be made within 14 days of the receipt of the NOV.
- 6) Idaho Code §42-1701B(4) provides that the Department and the NOV recipient may enter into a consent order formalizing an agreement to remedy or resolve the violation and assure future compliance.

TERMS OF AGREEMENT AND ORDER

- 1) The excess or unauthorized irrigation that occurred on the subject land in 2013 and 2014 is agreed between Egbert and the Department to be fifty five (55) acres.
- 2) Egbert agrees to submit application(s) to rent water from the WSB intended to authorize the excess irrigation identified in 2014.
- 3) Egbert agrees to meet with Department staff prior to the start of the 2015 irrigation season to quantify his water rights and identify acres intended to be irrigated in 2015. Egbert agrees to not irrigate acres in excess of those authorized by valid water rights.
- 4) Egbert agrees to pay a civil penalty in the amount of \$300/acre for any of the 55 acres that cannot be authorized under a WSB rental agreement for 2014 (\$16,500 max). Any applicable penalty amount due after WSB action on a related rental application for 2014 must be paid within 14 days of approval or denial of the proposed rental.
- 5) Egbert agrees to pay a civil penalty in the amount of seven thousand four hundred eighty dollars (\$7,480) for the unauthorized irrigation of 55 acres in 2013 (\$136/acre). This amount is due and payable within 14 days of execution of this agreement by Egbert.
- 6) The Department agrees to dismiss nine thousand twenty dollars (\$9,020) of the maximum civil penalty that may be imposed for the unauthorized irrigation of 55 acres in 2013 provided the terms of this agreement are met in full.
- 7) Egbert agrees that if the terms of this agreement are not met in full and/or the agreed civil penalty is not paid, the Department may initiate a civil action in the district court.

- 8) Upon execution of this agreement, compliance with the terms contained herein and the Department's receipt of the agreed civil penalty described above, NOV number E2014-654 will be considered resolved.

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO. 31-7316**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$1,030.20 was calculated based on the current rental rate of \$17.00 per acre-foot times a diversion volume of 60.6 acre-feet.

Please send a check for \$1,030.20 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing. Pursuant to the Water Supply Bank Rules, 90% or \$927.18 of the rental fee will be paid to the lessor(s) and 10% or \$103.02 will be retained by the Department to offset administrative costs.

If you have any questions, please contact me at (208) 287-4910.

Sincerely,

Clay Webster

MEMORANDUM

To: Water Rights: 31-7316
From: Remington Buyer
Date: August 13, 2015
Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE:

Rental applicant is Kirk Egbert. This is an amended version of a rental application that was initially submitted on April 15th, 2015, however the latest possible start date for the use of water was set backdated to April 8th. The initial rental was not reviewed until early May, at which point it was returned as IDWR had been unable to process the rental in advance of the latest possible start date for water. The rental request was resubmitted in June with a start date requesting an approval as soon as possible. The rental is being considered with a start date in September.

Mr. Egbert is seeking 60.6 AF of water, sufficient to irrigate 20.2 acres at 3 AF/AC, which is the duty of water for the water rights already appurtenant to the property.

AUTHORITY TO FILE: Application has been signed by Kirk Egbert. Mr. Egbert owns the property where irrigation will occur, no concerns about authority to file.

WATER RIGHT VALIDITY: Water right 31-7316 is leased to the Bank and available for rental. No concerns about water right validity.

INJURY TO OTHER WATER RIGHTS: Ground water modeling submitted with the application has been reviewed and depletions to the Snake River are less than the 2 AF/trimester and 10% total depletion thresholds. No concerns about injury through this rental.

ENLARGEMENT OF USE: Water right being rented is for 3AF/AC and rental is for 3AF/AC, no concerns about enlargement of use.

LOCAL PUBLIC INTEREST: No local public interest concerns regarding this rental.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the beneficial use/conservation of water resources.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: Water District 110 watermaster and IDWR Eastern Region staff member James Cefalo will be contacted about this rental.

Remington,

I don't have any concerns with either of the rentals. These are part of a package of WSB rentals and transfer applications that address unauthorized acres (and make it easier to handle WSB activity on the Egbert property in the future).

James,

Mr. Egbert submitted to the Bank two rental requests back in April that were returned in May because we were unable to process them prior to the earliest possible start date listed on Mr. Egbert's applications (April 8th). Mr. Egbert resubmitted amended rental applications that listed a start date in "July/as soon as possible". We can thus offer him a rental agreement for the remainder of the irrigation season (September through October), which is how I've drafted one of the two agreements, attached to this email.

As Watermaster for WD 110, could you please consider the application, map, review memo and draft rental agreement for the first of the two rentals and advise on whether you have any concerns regarding this rental?

Additionally, Mr. Egbert's second rental request concerns a field in the vicinity of this first rental with appurtenant water rights 31-11410, 31-11414, 31-11428, 31-11947, 31-11954. There are some complications with these rights, namely, that due to annual decreases in mitigation requirements, Mr. Egbert is not yet able to irrigate per the full duty of water authorized under the rights. Mr. Egbert has submitted a rental to obtain coverage to accomplish additional irrigation. From a review of Landsat imagery (June 22, 2015) It appears Mr. Egbert is irrigating approximately 250 acres, which is close to the 247 acres he has sought to rent from the Bank. Thus, we can do a rental agreement for him that provides an additional 4.38 acres per QQ, which would give him the additional 35 acres he requires to be compliant per his current usage. I'm attaching that rental request (and a map with landsat imagery) for your review as well. Could you please advise on whether you have concerns with this second rental? FYI, modeling of the water rights for the second rental appears permissible per the 2AF and 10% depletionary thresholds. If there are no concerns, I will proceed in drafting a rental agreement for Mr. Egbert pertaining to the second rental.

Thanks for your review of these two requests,

Remington

Mr. Webster:

I have made the necessary changes to Kirk Egbert's Rental Applications 31-731~~0~~ and 31-11443 that you specified in your returned letter date May 15, 2015. If there are additional requirements it would be appreciated if you would call me to discuss what is needed. Also it would be appreciated if you would email the Rental Agreement to be signed, and I will have Mr. Egbert sign it and we will mail it back signed and with the fee. Once the rental is approved would you also email the approved rental to my email address and also mail a copy to Mr. Egbert.

Thank you,
