1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
11. This rental agreement does not authorize the construction of a well.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany the rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.**

For leased rights with combined limits, applicants should request to rent against the combined limit diversion rate, volume or acre limits.

Evaluation of overall mitigation requirements per reach Steady State and Transient State, and Off-Setting Benefits (Sum of reach debits only where mitigation is required and credits)

Carry out one way analysis. If reach depletions go up, it is a debit. If they go down, it is a credit. Sum all debits, only where mitigation is required (dark yellow), and all credits (light yellow). Mitigation is required for the full amount of the summed values if greater than zero.

Steady state analysis represents permanent mitigation requirements at future steady state (or last timestep from the ESPAM Transfer Tool model run).

Transient state analysis represents mitigation requirements for the worst or maximum time step in the model run.

MEMORANDUM

From: Clay Webster
Date: 8/25/2015
Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: The department received the application to rent 0.89 cfs and 212 af to cover the irrigation of 53 acres from Zach Latham of Brockway Engineering for Grant 4D Farms on June 5, 2015.

AUTHORITY TO FILE: This application was signed by Duane R Grant a member of Grant 4D Farms according to the Idaho SOS web site. The POU and POD are on property owned by RLDR Farm LLC. The applicant provided an agreement with Bob Honsinger of RLDR Farm LLC granting permission to divert and apply the water. Robert R Honsinger is listed as a member of RLDR Farm LLC on the Idaho SOS web site.

WATER RIGHT VALIDITY: 36-2684 was decreed in 2001. A portion of this right has been leased to the bank since 2004. The most recent lease is for 2015 through 2019. 36-2130C was split from decreed right 36-2130A which was decreed in 1997. 36-7850C and 36-8106A were decreed in 1997. Portions of these three rights have been in the bank since 2004. The lease was rescinded in 2015 for non compliance with their lease. The non irrigated acres have offered for lease into the bank from 2015 through 2019 to cover a portion of this rental. Satellite imagery shows that the leased acres are being idled.

INJURY TO OTHER WATER RIGHTS: ESPA modeling was received with this application. I have verified the results and no mitigation is required for this rental.

ENLARGEMENT OF USE: No enlargement concerns are noted.

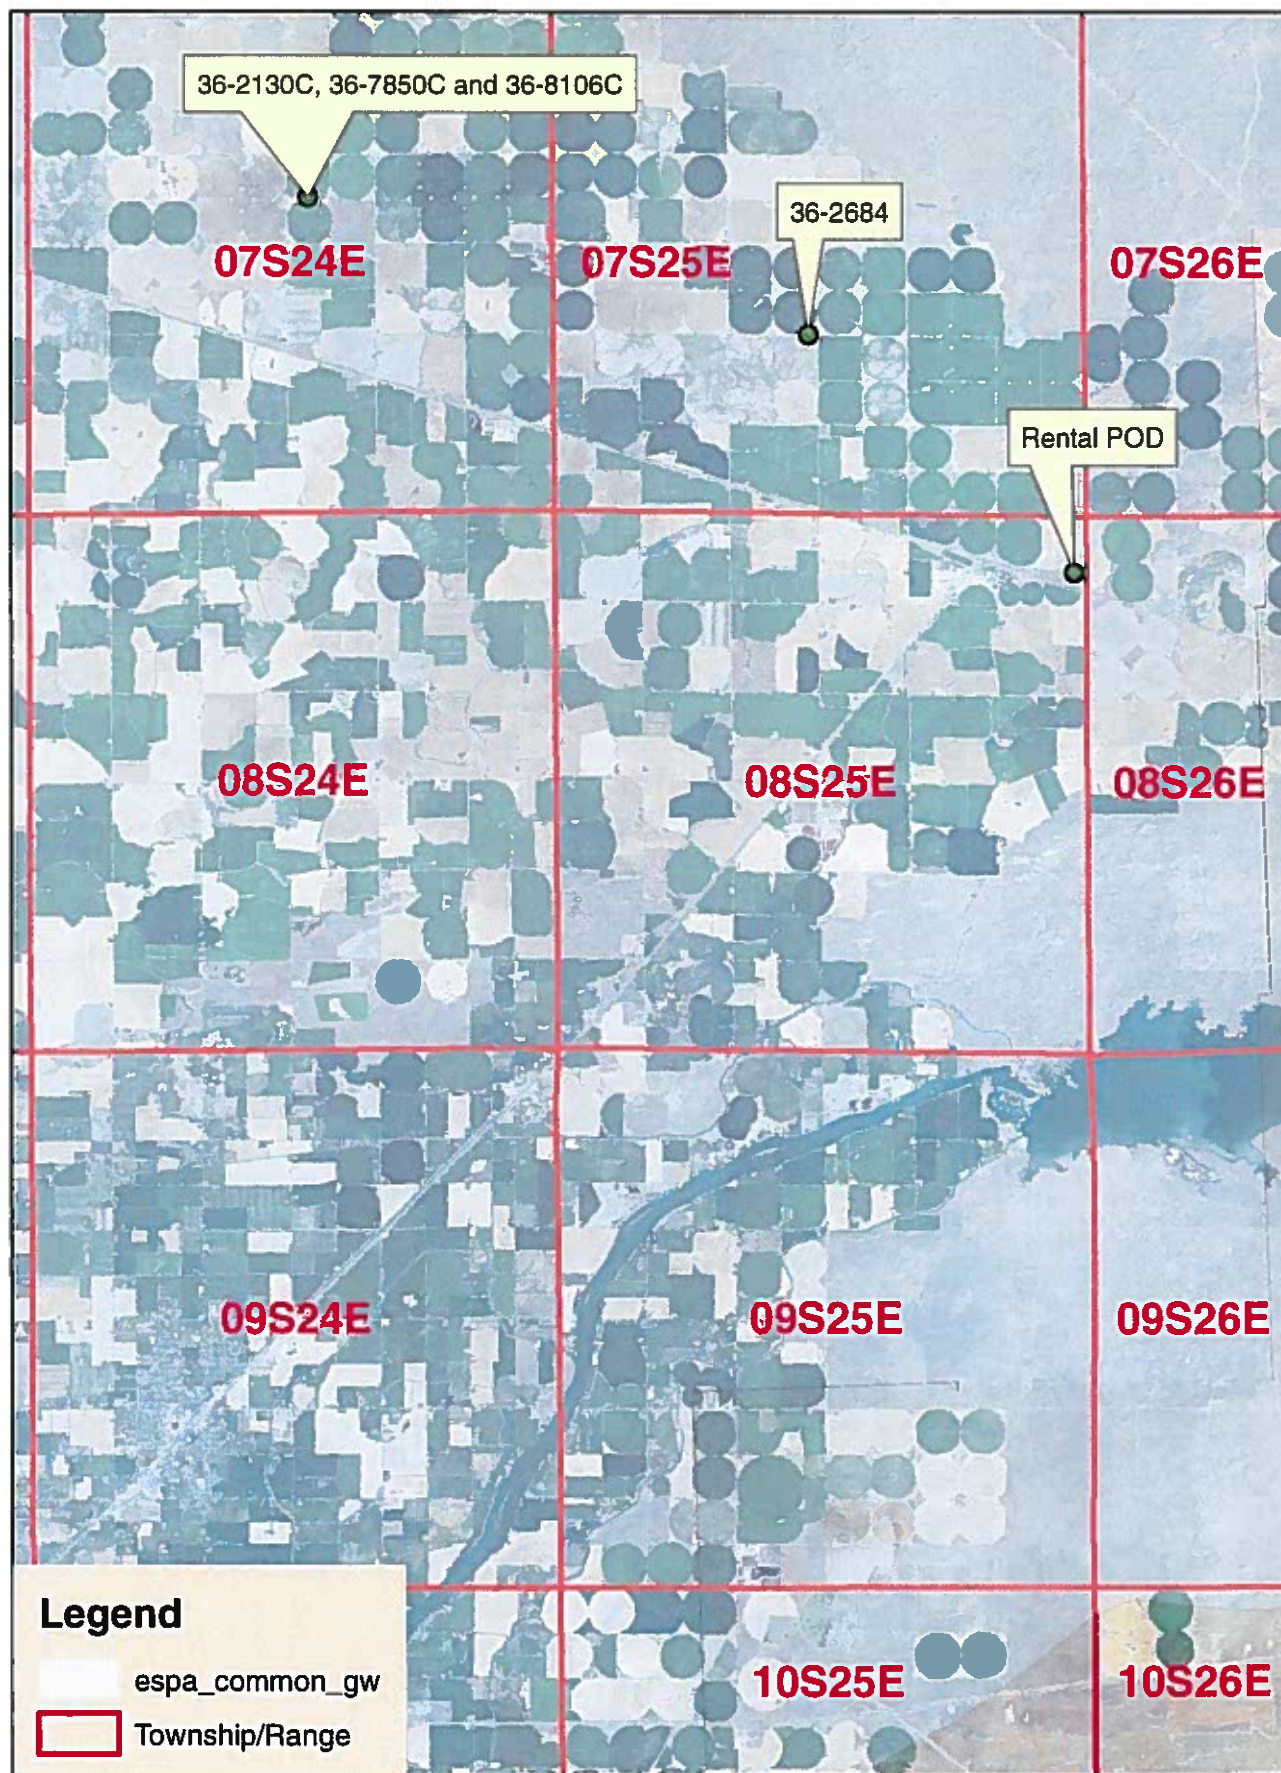

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The rented rights are subject to Water District # 130. Comments are being solicited from the watermaster.

Dear Ms. Palmer

Grant 4-D Farms has applied to lease portions of Water Rights 36-2684, 36-2130C, 36-7850C, and 36-8106C. In your response to the application dated April 1st, 2015, you asked for confirmation that Grant 4-D Farms had the permission of the landowner to divert the water through the landowner's point-of-diversion and to apply the water to the landowner's property.

The undersigned Bob Honsinger is a Member of RLDR Farm LLC. RLDR Farm LLC is comprised of the children of Roy and Evelyn Honsinger, and is the successor landlord under the lease agreement between Roy Honsinger (deceased) and Grant 4-D Farms.

The undersigned Duane Grant is the President of Grant 4-D Farms LLC, which is the successor of Grant 4-D Farms general partnership.

Together, RLDR and Grant 4-D Farms LLC are referred herein as the Parties.

The Parties agree and hereby give consent and permission for the use of water rented from the Idaho Water Bank, including but limited to the water rights listed above, for diversion from either or both of the points of diversion located on the RLDR property as reflected in RLDR water rights 36-36-2261, 36-2560, 36-7850D, or 36-8106D, and to use the water on property owned by RLDR LLC located in East ½ Section 1 Township 8S Range 25E, EBM, Minidoka County, Idaho for the 2015 through 2020 irrigation seasons, or for the term as may be permitted by the IDWR.

If you have any questions, please feel free to contact Duane Grant at 208-431-0006, or Bob Honsinger at 208-208-521-4106, or Zach Latham at Brockway Engineering, who is assisting in this matter, 208-736-854.
