Subject: Water supply bank forms

Stephanie,

It was a pleasure to speak with you this afternoon. I will be documenting the water right file 61-12241 with a record of our conversations. To reiterate, you do not need to take immediate action to protect the right. But you and your husband should consider taking action soon. Aerial photography shows irrigation in the summer of 2010. If you can't get the system running I recommend putting the right into the Water Supply Bank. You will have until the end of next year (2016) before the right could be considered forfeited.

Here is the link that I promised to send. Let IDWR know if you have trouble opening or viewing it. The main switchboard for the state office is 208-287-4800. They'll connect you with the agent-of-the-day or our IT support and whoever it is will get it sorted.

Michele
