Attn: Jeff Peppersack

Re: Permit No. 63-32016

Dear Jeff:

Our Board has looked at these seepage springs and determined that they are so small (volume less than 10 G.P.M.) and virtually impossible to access; and the fact that they are in close proximity to our existing hot water rights; that it wouldn't be prudent to try and develop them. In fact, we are afraid that they might diminish and damage the flow from the existing ones.

These are the reasons we have taken the action to not develop them. I would hope that any future claims would be denied on this basis. At the very least, legal action will occur if our existing flows are diminished. I would assume the burden of proof would fall on any new claimant.

Sincerely,

A handwritten signature in dark ink, appearing to read "Dale Pippitt", with a long horizontal flourish extending to the right.

Dale Pippitt, President
Paradise Homeowners' Association
