RE: TRANSFER REVIEW

10-17-85

During review of this transfer, I noted that item A.6. showed 6.6 cfs as a total of the 3 rts being transferred, however, item C 1.a. only showed 6.0 cfs, a difference of 0.6 cfs.

In pursuit of information explaining this difference I discovered that the newspaper publication identified 6.0 cfs being diverted at the new pt. of diversion, but, it also ~~identified~~ identified 1.6 cfs under right 37-0577AY as being also transferred. THIS, HOWEVER, DOES NOT APPEAR TO BE CORRECT.

This transfer application needs to identify why only 6.0 cfs is proposed to be diverted after the transfer and if only 6.0 cfs is intended, identify which water rt. is being affected. Also the inclusion of rt. 37-0577AY AS PART OF THE PUBLICATION OF THE transfer application needs to be resolved.

The Transfer Application is being returned to the region.
