Subject: BLM Protest - Application for Transfer 79975 Robison

USDI Bureau of Land Management
Idaho State Office

Fred Price:

I received the protest you submitted on behalf of BLM for Application for Transfer 79975 in the name of Adrian Rand Robison and Dorothy H. Robison. I believe your concerns may already have been addressed during the initial department review of the Robison application and correspondence with the applicants. You can review this documentation in the scanned record of water right 74-1593 from our online search tool on the public website.

The transfer proposes to move 4 acres of irrigation into the NESE, S15, T17N, R24E. The applicants own a 5 acre lot in the N1/2NWNESE and 5 acres of irrigation are already authorized in this QQ under Right 74-1593. I provided options to Mr. Robison and he provided an agreement from McFarland Livestock Co Inc to allow the additional acres in the NESE to be located on their property in the north portion of the E1/2NESE. No irrigation will be authorized on BLM land through this transfer approval. Mr. Robison faxed the agreement to IDWR amending his application and providing authorization from the property owner.

The proposed POU is the same as the application, but the specific location has been modified from the original application map. The proposed transfer shape for Right 74-1593 will appear as shown below and the condition noting that the place of use does not include federal public lands will remain on the right.

I hope this is useful information in your review of the transfer application.
