WATER RESOURCES
WESTERN REGIONSTATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

Transfer No. 79285

AMENDED

MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at www.idwr.idaho.gov.

Name of Applicant(s) Riverside Village Home Owners Association, Inc.

Check whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.

Yes N/A * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a [Part 2A](#) report describing each water right in the transfer as currently recorded.
- ☐ ☒ Complete and attach an Application for Transfer [Part 2B](#) for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. ([Fee schedule](#) is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-9.

- ☐ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s).**
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☒ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm.
- ☐ ☒ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☐ ☒ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System ([GIS](#)) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see [fee schedule](#).
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☒ ☐ #9 Other. Please describe: Supplemental Information

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☐ Add diversion point(s) ☐ Change place of use
☐ Change nature of use ☐ Change period of use ☒ Other submit mitigation plan
2. Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred (i.e. number of stock, etc.), and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it **Part 1A.2**.

The purpose of the application is to submit and have approved a mitigation plan for diversions from the Boise River and Village Lake as authorized by water right nos. 63-9718 and 63-9751, and to add an additional point of diversion from Long Lake to be used for irrigation under water right 63-9718.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT PART 1 Continued

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:
The applicant has installed a measuring device as required by the Water District 63 Watermaster on the existing diversion system.
-
- b. Who owns the property at the point(s) of diversion? City of Garden City
If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
These are existing points of diversion. The most recent water right action describing the existing points of diversion is the approval of transfer #78263 issued April 5, 2013. Use of the site for the proposed new point of diversion is authorized by a license agreement made June 24, 2013 between the City of Garden City and the applicant.
- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?
If yes, ☐ Attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: There is no change proposed to the place of use.
-
- It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.
- d. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:
No changes are proposed by this application to the place of use.
-
- e. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:
None.
-
- f. To your knowledge, has/is any portion of the water right(s) proposed to be changed:
Yes No

WATER RESOURCES
WESTERN REGIONSTATE OF IDAHO
DEPARTMENT OF WATER RESOURCESTransfer No. 79285**MINIMUM REQUIREMENTS CHECKLIST**
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at www.idwr.idaho.gov.

Name of Applicant(s) Riverside Village Home Owners Association, Inc.Check whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.Yes N/A * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a Part 2A report describing each water right in the transfer as currently recorded.
- ☐ ☒ Complete and attach an Application for Transfer Part 2B for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. (Fee schedule is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-9.

- ☐ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s).**
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☒ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm.
- ☐ ☒ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☐ ☒ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see fee schedule.
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☒ ☐ #9 Other. Please describe: Supplemental Information

Conditions of Approval:

1. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
2. The 12 ponds established by the storage of water under this right shall not exceed a total capacity of 78 acre-feet or a total surface area of 4.8 acres.
3. X61 The period of use for the irrigation described in this approval may be extended to a beginning date of 3/1 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 11/1 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than 2/16/2007.
4. R61 This right when combined with all other rights shall provide no more than 4.5 cfs per acre at the field headgate for irrigation of the place of use.
5. T07 The right holder shall accomplish the change authorized by this transfer within five (5) years of the date of this approval.
6. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 8 DISTRICT.
7. X27 This right is limited to the irrigation of 11 acres within the authorized place of use in a single irrigation season.
8. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
9. R43 The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
10. 004 This right does not grant any right-of-way or easement across the land of another.

Conditions of Approval:

1. F17 The point of diversion for this water right is unsurveyed accretion land. The quarter-quarter description has been protracted from the adjacent public land survey.
2. Diversion and use of water is authorized only when flows in the Boise River warrant delivery of water under a date of priority of June 23, 1981. If this priority cannot be satisfied, diversion must cease unless:
a) the use is entirely non-consumptive and all water is returned to the river, or
b) the consumptive amount of water is replaced from another source or right which is deliverable. In such case, a determination of consumptive use must be made and an acceptable method of replacement must be approved by the department prior to delivery under another source or right.
3. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
4. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 63.
5. R43 The right holder shall maintain measuring devices at the point of diversion and at the point of discharge and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).
6. T07 The right holder shall accomplish the change authorized by this transfer within five (5) years of the date of this approval.
7. Return flow is discharged into the Boise River via Riverside Creek in the NESE, S23, T04N, R01E.
8. 004 This right does not grant any right-of-way or easement across the land of another.
9. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 2

A. DESCRIPTION OF RIGHT(S) AS RECORDED

For each water right listed in Part 1B.1 of the application, attach a **Part 2A** report obtained from any Department office or from the Department's website @ www.idwr.idaho.gov, Water Right Transfers, Step 1. Insert Part 2A reports into the application following Part 1.

B. IF ONLY A PORTION OF THE RIGHT IS PROPOSED TO BE CHANGED, DESCRIBE THE PORTION BEING CHANGED AS IT APPEARS BEFORE THE REQUESTED CHANGES

- ☐ Complete and attach one copy of Part 2B for each right for which only a portion is proposed to be changed. If the entire right is proposed to be changed, Part 2B is not applicable. Additional copies of the Part 2B form can be obtained from any Department office or from the Department's website @ www.idwr.idaho.gov, Water Right Transfers, Step 3, or Water Right Forms, Changes in Use. Insert completed Part 2B forms into the application following Part 2A of the same water right.

Right Number: _____

- [illegible]

2. Lands irrigated or place of use: (If irrigation, identify with number of acres irrigated per $\frac{1}{4}$ tract.)

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 3

A. PLAT MAP (See Part 3A of Instructions for application for transfer for complete requirements.)

- ☒ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**.
- ☐ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b**. If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

B. CHANGES IN NATURE OF USE (Water Balance)

- ☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it Attachment #8a.

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

- ☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation.
Label it **Attachment #8b**.

Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above:

**Supplemental Information to
Application for Transfer of Water Right**

(Riverside Village Home Owners Association, Inc.)

This application is filed in conjunction with a proposed plan for mitigation that is intended to mitigate any out-of-priority diversions by Riverside Village Home Owners Association ("Association") under its existing decreed water rights 63-9718 and 63-9751, which authorize diversion of water from the Boise River for irrigation and aesthetic purposes within the Riverside Village Subdivision ("Subdivision") in Garden City. The application also seeks to add an additional point of diversion for the Association's water rights. The application is intended to facilitate review and processing of the Association's mitigation plan.

The priority dates of the Association's two water rights are April 3, 1981 and June 23, 1981 respectively. Although they have not been historically administered by the Water District 63 Watermaster, the Association expects that these water rights will begin to be administered in the future, and would be out-of-priority and subject to curtailment most of the time during most years.

Water Right Transfer No. 78263 approved the Association's application to create a 66.6 acre permissible place of use within which the Association could irrigate up to 11 acres within the Subdivision under water rights 63-9718. The instant application

The Association has contracted to purchase up to 16 shares of Boise Valley Irrigation Ditch Company ("BVIDC") capital stock. Each share represents a shareholder's proportional right to irrigation water delivered by BVIDC at 0.02 cfs per share. BVIDC's primary water rights from the Boise River have a June 1, 1865 priority date, which is sufficiently senior to ensure delivery throughout the irrigation season, subject to the percentage cuts required under the Stewart Decree.

BVIDC's headgate is located on the north side of the Boise River in the SESE of Section 5, T3N, R2E, B.M. The Association's points of diversion are situated approximately 1.5 miles downstream from the BVIDC headgate and immediately upstream of the New Union/New Dry Creek ditch companies joint point of diversion.

Under its agreement with BVIDC the Association may request authorization from IDWR for use of the water rights associated with the sixteen BVIDC shares to mitigate any out-of-priority diversions under the Association's water rights. The water associated with these acquired rights/shares would not be diverted into the BVIDC system, but would remain in the Boise River to offset the depletive effect of the Association's diversion to irrigation and evaporative losses attributable to the aesthetic component of the Association's water rights. Water associated with eleven of the sixteen shares would be used to mitigate depletions attributable to the Association's authorized irrigation and water associated with five of the sixteen shares would be used to mitigate depletions attributable to evaporative losses from aesthetic ponds and water ways of approximately 5 acres within the Riverside Subdivision.

The Association's requested additional point of diversion is from an existing pump situated within an artifact side channel of the Boise River locally known as Long Lake. The Association has an agreement with Garden City allowing the Association's access to, and use of, this pump. The Association believes Long Lake has a direct hydraulic connection with the Boise River, and Long Lake receives Boise River water directly via a diversion structure and pipeline from the Boise River. Any water diverted by the Association for irrigation from Long Lake is proposed to be measured and regulated by the Water District 63 Watermaster at the Long Lake Pump.

LICENSE AGREEMENT

This License Agreement ("Agreement") made this 24th day of June, 2013, by and between the City of Garden City, an Idaho municipal corporation, (hereafter referred to as the "City"), and Riverside Village HOA, an Idaho non-profit corporation, Idaho (hereafter referred to as the "Licensee");

WITNESSETH:

A. The City is the owner of real property adjacent to the "Long Lake" in the Riverside Village subdivision. The property is unimproved and has a small sprinkler pump, owned by the licensee, is used to water the Licensee's common areas from the Long Lake. The sprinkler system also waters adjacent real property own by the City; and

B. The use of the City's property is negligible in value and the City derives a benefit from having its property sprinkled by the use of the Licensee's pump. Neither party owns or maintains the irrigation equipment of the other part; and

C. It is in the best interest of the City to enter into this license agreement.

NOW, THEREFORE, in consideration of the mutual promises and covenants contained in this Agreement, and other good and valuable consideration the receipt and sufficiency of which is hereby acknowledged, the parties hereby agree as follows:

1. Grant of License

Subject to the provisions of this Agreement, the City hereby grants to the Licensee a non-exclusive license (the "License") to use and place a sprinkle pump on the real property owned by the City adjacent to Long Lake in the Riverside Village subdivision. The pump already has been placed on the real property and need no further legal description.

2. Term of License

The term of this license (the "Term") shall be for twenty years so long as the Licensee is maintaining its sprinkler pump and conveyances from the real property.

3. Indemnity

Licensee hereby unconditionally and absolutely agrees to indemnify, defend and hold City harmless from and against all loss, damage, claim or liability that may arise from the Licensee's use of the real property.

4. Termination

This License shall terminate at such time as either party provides thirty (30) days prior

written notice of termination.

5. License Only

This License shall be deemed to create only the relationship of licensor- licensee between the parties and shall, in no event, be deemed to create any other relationship, including, without limitation, landlord-tenant, principal-agent or master-servant.

6. License Not To Be Recorded

Since no survey has been conducted to determine the exact description of the real property governed by this License, it is agreed that this License shall not be recorded.

7. Assignment

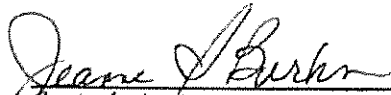

Licensee may not assign its rights and obligations under this Agreement without the express written consent of the Licensor.

IN WITNESS WHEREOF, the Parties have hereunto caused this License Agreement to be executed on their behalf by their duly authorized officers as of the day and year first above written.

LICENSOR:
CITY OF GARDEN CITY

John G. Evans
Mayor

LICENSEE:
RIVERSIDE VILLAGE HOA

Jeane J. Burk
RVHOA, Its President

Attest:

James Krueger, City Clerk

WATER RIGHT STOCK PURCHASE AGREEMENT

THIS WATER RIGHT STOCK PURCHASE AGREEMENT (this "Agreement") is entered into by and between the Boise Valley Irrigation Ditch Company, an Idaho non-profit corporation ("BVIDC"), and Riverside Village Home Owners Association, Inc., an Idaho non-profit corporation ("RVHOA"), c/o Advantage Idaho, Inc., 664 Rivershore Lane, Suite 152, Eagle, Idaho 83616.

RECITALS

A. BVIDC is the owner of certain decreed water rights diverted from the Boise River for delivery to its shareholders for irrigation and other purposes.

B. RVHOA is responsible for, among other things, the operation and maintenance of the Common Area within the Riverside Village Subdivision Nos. 1-5, situated in Garden City, Ada County, Idaho, which Common Area includes all real property, including water rights, owned and controlled by RVHOA for the common use and enjoyment of its members.

C. RVHOA holds certain decreed water rights nos. 63-9718 and 63-9751 authorized to be diverted from the Boise River for irrigation and other purposes (the "RVHOA Water Rights"), and also is intending to apply to the Idaho Department of Water Resources ("Department") to obtain approval of a water right transfer and mitigation plan that would offset depletive effects of any out-of-priority diversions from the Boise River by RVHOA for irrigation and aesthetic purposes (the "RVHOA Application").

D. In connection with RVHOA's use of the RVHOA Water Rights, and the RVHOA Application, RVHOA desires to purchase a total of sixteen shares of BVIDC stock, and that the water rights represented by the sixteen shares be used to offset and mitigate out-of-priority

diversions from the Boise River that may be attributable to RVHOA's exercise of the RVHOA Water Rights.

E. Sheldon Barker and Tom Arkoosh ("Barker/Arkoosh") together own two shares of BVIDC stock that they are willing to sell and transfer to RVHOA to be used together with an additional fourteen shares that RVHOA would purchase directly from BVIDC to make up the desired sixteen BVIDC shares.

F. BVIDC holds fourteen authorized and unissued shares of stock that it is willing to sell to RVHOA for RVHOA's intended purpose, on the terms set forth below.

AGREEMENT

NOW THEREFORE, for good and valuable consideration the parties agree as follows:

1. **Purchase and Sale of Shares.** BVIDC agrees to sell and RVHOA agrees to purchase fourteen shares of BVIDC stock representing the right to divert up to 0.28 cfs of water from the Boise River for irrigation purposes.

2. **Purchase Price.** The purchase price shall be [REDACTED] per share for a total price of [REDACTED] for fourteen shares.

3. **Use of Water Represented by Purchased Shares.** The parties agree that RVHOA may apply to the Department seeking approval of the use of the portion of the BVIDC water rights represented by sixteen BVIDC shares as mitigation for RVHOA out-of-priority diversions from the Boise River under the RVHOA Water Rights, provided that such approval does not involve a water right transfer changing any element of BVIDC's water rights. BVIDC represents and agrees that it will not divert water under that portion of the water rights represented by the sixteen shares from the Boise River into its delivery system to the extent that the sixteen shares are approved by the Department for use by RVHOA as mitigation. BVIDC acknowledges and agrees that for record-keeping purposes, as part of its transfer approval, the

Department may allocate the quantity of water deemed used for mitigation to only one of the several water rights/priorities held by Boise, provided such allocation will not impair or reduce the quantity and priority of water rights BVIDC is authorized to divert from the Boise River for beneficial use by its other shareholders.

4. **Approval as Mitigation.** RVHOA shall be responsible for obtaining all approvals from the Department for use of the water rights represented by the sixteen shares as mitigation, and for the cost of any filing fees, or its legal fees or consultant fees incurred by and on behalf of RVHOA. BVIDC will cooperate with RVHOA and promptly execute any documents that may be reasonably required to indicate BVIDC's consent to the RVHOA's use of the water rights represented by the sixteen shares for mitigation. It is contemplated that BVIDC may need to identify for the Department which of its water rights the mitigation is to be allocated to for record keeping purposes.

5. **Closing and Contingency to Closing.** The closing of the purchase and sale of the sixteen shares is contingent upon, and shall occur within ten days of the date of, a final order by the Department approving the RVHOA Application and RVHOA's proposed use of the sixteen shares as mitigation. At closing RVHOA shall deliver the Purchase Price to BVIDC. RVHOA intends that contemporaneously with the closing, Barker/Arkoosh will deliver to BVIDC their two shares with authorization to record a transfer of the two shares to RVHOA on the books of the Company. Provided the two Barker/Arkoosh shares are so delivered, BVIDC shall issue to RVHOA a fully-executed stock certificate showing RVHOA to be the owner of sixteen shares of the capital stock of BVIDC, and shall record the transfer of the sixteen shares on the books of the Company. BVIDC shall continue to be the record owner of the water rights represented by the sixteen shares.

6. **Shares Subject to Assessment.** RVHOA agrees to pay all assessments levied on the sixteen shares, which assessments shall be levied equally and ratably on a par with other BVIDC stock.

7. **Representations of the Parties.** The parties each represent to the other that this Agreement and the actions to be taken by them respectively pursuant to this Agreement have been duly authorized and are in compliance with their respective articles and bylaws.

8. **Agreement Final.** This Agreement is the final agreement of the parties as to the subject matter herein. Any amendment or modification of this Agreement must be in writing signed by both parties to be enforceable.

9. **Counterparts.** This Agreement may be executed in counterparts for the convenience of the parties, all of which, when taken together and after execution by all the parties hereto shall constitute one and the same agreement.

Application for Transfer No. 79285

Dear Applicant:

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the ID STATESMAN on 9/3/2015 and 9/10/2015. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Rachel Neely

PROPOSED CHANGE OF WATER RIGHT(S)

Riverside Village Home Owners Association (Riverside), Inc. of Advantage Idaho, P.O. Box 140273, Boise ID 83714, filed Transfer Application No. 79285 to add a point of diversion and record two existing points of diversion under water rights 63-9718 & 63-9751. The source(s) are the Boise River, Village Lake, and Long Lake with the new point of diversion located in the Gov Lt. 5 SWSW Sec 24 Twp 4N R1E. General vicinity is the north side of the Boise River just west of the Glenwood Bridge. The transfer filing also provides notice of agreement between Riverside and Boise Valley Irrigation Ditch Company (BVIDC) to allow Riverside continued diversion under rights 63-9718 & 63-9751, when out of priority, with exchange of BVIDC leaving same amount of water right undiverted from the Boise River under water right 63-31832. No other changes proposed.

For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the right(s) or proposed transfer(s), please see www.idwr.idaho.gov/WaterManagement/WaterRights. Protests may be submitted based on the criteria of Idaho Code § 42-222. Any protest against the proposed change(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 9-21-2015. The protestant must also send a copy of the protest to the applicant.

Re: Amended Application for Transfer No. 77710
Riverside Village Homeowners Association Inc.

Dear Steve:

I am enclosing an amendment to an Application for Transfer of Water Right filed by Riverside Village Homeowners Association, seeking to add a point of diversion to its Boise River water rights. The purpose of the amendment is to reduce the quantity of water that would be diverted from the additional point of diversion to 0.33 cfs. Also enclosed is a check in the amount of \$300.00, which, when added to the \$200.00 previously submitted with the original application will cover the required fee for the amount of water being transferred.

Please let me know if your office will require anything further in connection with processing this application.

Sincerely,

Michael C. Creamer

Re: Application for Transfer No. 79285

Dear Mike:

You have been working with Sharla Curtis regarding the appropriate filing fee for the above referenced application. Sharla resigned recently. Her last memo to the file dated 1/28/2015 stated you had discussed the issue and that an amended application documenting a 0.33 cfs rate was going to be filed. We have not received anything more in that regard.

The application was submitted under your cover letter. The application identifies SPF as the representative acting for the applicant. The department typically tries to avoid multiple representatives since it can lead to unintended confusion and delays. I think it is fitting in this case to respect your appearance for the applicant. I am sending this to you without copying SPF and leave it in your capable hands to proceed as you see fit.

Please have the applicant submit the requested information for application processing to continue. The applicant may seek more time if necessary. A written response must be received within the next sixty (60) days. Without a timely reply, IDWR will issue a preliminary order to reject the application. The application fee will not be refunded for a rejected application. A rejected application may be re-filed when adequate information can be provided.

Thank you for your attention to this matter.

Sincerely,

Steve Lester
Interim Western Region Manager

MEMORANDUM

To: Transfer No. 79285

From: Sharla

Date: January 28, 2015

Re: Telecon with Attorney

On this date, Mike Creamer called me back to discuss the filing fee for this transfer. Last week when I spoke with him, I informed him that the filing fee that was paid is insufficient for the amount of water requested on the transfer application. I further told him that if they did not want to pay additional filing fees, the transfer approval would contain a condition limiting the diversion to 0.20 at the "new" point of diversion.

Today, Mike told me that they have inspected the "new" point of diversion and it is capable of only pumping about 0.33 cfs. Therefore, he will contact SPF to submit an amendment showing this and the additional fee for 0.33 cfs will be paid.

Re: Riverside Village Home Owners Association, Inc. – Application for Transfer of
Water Right & Proposed Mitigation Plan

Dear John:

I am enclosing for review and processing an original and one copy of Riverside Village Home Owners Association's Application for Transfer and proposed mitigation plan. This application proposes to add a point of diversion for the Association's two Boise River water rights from Long Lake. Also enclosed is a check in the amount of \$200 to cover the filing fee. Please return a conformed copy of the application to me in the enclosed return mailer.

Please feel free to contact me if the Department requires any additional information.

Sincerely,

Michael C. Creamer
