25N	21E	21		NW	SE	SW	LEMHI	NORTH FORK SALMON RIVER	

4. Water will be used for the following purposes:

Amount 150.00 for irrigation purposes from APRIL 1 to OCT. 31 (both dates inclusive)
(cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

Amount 0.02 for irrigation purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)

5. Total quantity to be appropriated is (a) 15 cubic feet per second (cfs) and/or (b) _____ acre feet per year (af)

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. 1 HD 3450 RPM 1" INTAKE
3/4" OUT 2 HEADS

b. Height of storage dam NA feet; active reservoir capacity N/A acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No

c. Proposed well diameter is NA inches; proposed depth of well is _____ feet.

d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No

e. If well is already drilled, when? _____; drilling firm _____;
well was drilled for (well owner) _____; Drilling Permit No. _____

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. _____

b. Stockwatering; list number and kind of livestock. _____

c. Municipal; complete and attach the Municipal Water Right Application Checklist.

d. Domestic; show number of households _____

e. Other; describe fully. _____

Amended application received 8/3/15 with New rate & Acres.
Original application that has been superceded has original Signature,
maps and Fish and Game agreement.

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

IRRIGATION PUMP SCREEN INSPECTION AGREEMENT

Between

JOSEPHINE'S PIZZA & RV PARK
VICTOR TURCHAN

And

IDAHO DEPARTMENT OF FISH AND GAME

This AGREEMENT is made and entered into this 19 day of JUNE, 2014 by and between, JOSEPHINE'S PIZZA & RV PARK, VICTOR TURCHAN hereinafter referred to as OWNERS, and the Idaho Department of Fish and Game, hereinafter referred to as IDFG, WITNESSETH:

WHEREAS: Idaho Code § 36-906(b) requires a suitable screen be installed and maintained by the owner or operator on any water conduit receiving or taking water from any Idaho stream or river, to prevent fish from entering into said conduit; and

WHEREAS: OWNERS are presently pumping irrigation water from the NORTH FORK River Creek; and

WHEREAS: The existing pumping apparatus is not adequately screened to prevent entry or injury of fish by the conduit; and

WHEREAS: Under Idaho Code §36-906(c) the IDFG has the program responsibility for specifying the type, design, and location of devices for screening fish from pump irrigation diversions within waterways of the state; and

WHEREAS: The National Marine Fisheries Service has designated the Snake River spring, summer, and fall chinook, and sockeye salmon as endangered species, which dictates the protection and enhancement of fish; and

WHEREAS: In order to expedite compliance with Idaho Code and the ESA, IDFG will assist with installation of proper screen protection by entering into a cooperative pump screen inspection agreement with pump diversion OWNERS.

THEREFORE IT IS AGREED;

A. Idaho Department of Fish and Game (IDFG) will:

1. Design, purchase, and install a screen on OWNERS' pump diversion not to exceed one and one-half (1.5) miner's inches of water (0.03cfs) per acre. If deemed necessary, IDFG will purchase and install a foot-valve or suction line on OWNERS' pump diversion. Any additional cost will be borne by the water user.
2. Should technical or biological criteria change requiring replacement and installation of a new pump screen, IDFG will assume responsibility for furnishing and installing replacement.

B. OWNERS will:

1. Cooperate with IDFG in evaluating the existing or proposed pumping system, including making available all pumping equipment technical literature and known data, such as pumping flow operational difficulties such as silting, related to the operation of the pump system diversion.

Application For Permit No. 75-14799

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the RECORDER HERALD on 9/3/2015 and 9/10/2015. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Jean Hersley
Technical Records Specialist

The following application(s) have been filed to appropriate the public waters of the State of Idaho:

75-14799

JOSEPHINES PIZZA & RV PARK
C/O VICTOR TURCHAN
2570 HWY 93 N
NORTH FORK, ID 83466
Point of Diversion SESW S21 T25N R21E LEMHI County
Source NORTH FORK SALMON RIVER Tributary SALMON RIVER
Use: IRRIGATION
04/01 to 10/31
0.02 CFS
Total Diversion:
0.02 CFS
Date Filed: 7/24/2015
Place Of Use: IRRIGATION
T25N R21E S21 SESW
Total Acres: 0.5

This application proposes the diversion and use of water from a tributary of the Salmon Wild & Scenic River. The decreed minimum stream flow rights for the federal Wild & Scenic Rivers are subordinate to certain categories of water use and to specific amounts of water use established after the minimum stream flow. The water use proposed in this application will benefit from the subordination provision because the diversion rate 0.02 cfs and 0.5 acres will be applied to the subordination amounts specified in the decree for the Wild & Scenic River listed above.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact the State office at (208) 287-4800; or for a full description of the right(s), please see www.idwr.idaho.gov/apps/ExtSearch/WRFiling.asp. Protests may be submitted based on the criteria of Idaho Code § 42-203A. Any protest against the approval of this application must be filed with the Director, Dept. of Water Resources, State Office, 322 E Front St, PO Box 83720, Boise, ID 83720 together with a protest fee of \$25.00 for each application on or before 9/21/2015. The protestant must also send a copy of the protest to the applicant.

GARY SPACKMAN, Director

MEMORANDUM

Date: August 14, 2015
To: Water Right File 75-14799
From: Steven Visosky
Re: Application for Permit Review

Applicant

Application for Permit 75-14799 was filed by Josephines Pizza and RV Park. The application that was originally received on July 24, 2015 was returned to the applicant as changes were needed to be made after initial review. The amended application was received on August 3, 2015. This amended application did have an increase in acreage so priority date should be set August 3, 2015. According to the available Lemhi County taxlot information that was last updated on 1/20/2015, the POU is located on the property owned by Josephines Pizza and RV Park, LLC which is adjacent to the river.

Source & POD

The proposed source of the water is the North Fork of the Salmon River. This is within the Wild and Scenic Rivers Watershed. The applicant was sent an IDWR's additional local public interest information request on August 4, 2015 and Mr. Turchin responded by telephone on 08/17/15 that he had no further comment to add. A copy of the signed irrigation pump screen and inspection agreement between the Josephine's Pizza and RV Park and the Idaho Department of Fish and Game was attached with the application.

Water Use

The applicant wants to water .5 acres of grass around the restaurant and RV park, from April 1st thru October 31th. Water will be drawn from the North Fork of the Salmon River with a 1 HP 1" intake and out with a ¾" line to 2 heads. Water Use Standards for this Administration Area is 3.5 AF.

POU

The place of Use is 0.5 acres of grass around the restaurant and RV park. The applicant has stated that they have a domestic well used for domestic purposes inside the restaurant.

POU/POD overlap analysis

There does not appear to be a domestic water right associated with the well used for domestic purposes inside the restaurant. The only direct overlap with a water right is 75-10022, a domestic 1944 decree for groundwater somewhere in the same SESW. The taxlot associated with water right 75-10022 is RP 25N21E212401A and does not appear to match the applicant's lot or any other lot in the QQ.

RE: Application to Appropriate Water in the Upper Salmon River Basin 75-14799

Dear Water Right Applicant:

The Department of Water Resources' (IDWR) records show you filed an application to establish a new use of water in the upper Salmon River basin. Idaho Code § 42-203A(5) requires IDWR to determine whether each water right application satisfies all the criteria necessary for appropriating water in Idaho. One statutory criterion requires IDWR to determine the local public interest relative to the proposed water use. Idaho Code § 42-202B(3) defines the local public interest as "the interests that the people in the area directly affected by a proposed water use have in the effects of such use on the public water resource." The local public interest has many facets, including the effects of a proposed water use on aquatic habitat for fish and wildlife resources.

The upper Salmon River basin is home to stocks of chinook salmon, sockeye salmon, steelhead trout, and bull trout, all of which are listed as threatened or endangered under the Endangered Species Act (ESA). Since the early 1990s, local water users, conservation districts, and federal and state agencies have cooperated to implement conservation measures intended to protect and restore habitat for ESA-listed species in the upper Salmon River watershed. For example, at the request of local water users the Idaho Legislature directed the Idaho Water Resource Board (IWRB) to establish a minimum stream flow in the lower Lemhi River for fish passage. The minimum stream flow is maintained through a water supply bank and temporary or permanent acquisition of additional water supplies by willing buyers from willing sellers.

Pursuant to the Snake River Water Rights Agreement of 2004, Idaho has been developing a long term conservation plan for the benefit of ESA-listed species in the Lemhi River basin. Improving conditions in flow-limited river reaches and streams is a fundamental component of the Lemhi plan. In addition to IDWR, numerous state agencies, including the Office of Species Conservation, Idaho Department of Fish and Game, Idaho Department of Environmental Quality, Idaho Soil and Water Conservation Commission, and Idaho Department of Lands, have committed and continue to commit significant resources toward this objective under the following programs:

- Columbia Basin Water Transactions Program
- National Marine Fisheries Service Pacific Coastal Salmon Recovery Fund
- U. S. Fish & Wildlife Service Aquatic Species Conservation Fund
- Salmon and Clearwater River Basins Habitat Fund
- 2008 Columbia Basin Fish Accords

Letter to Upper Salmon River Basin Water Right Applicants
Page 2

A myriad of habitat restoration projects are being constructed/implemented in other parts of the upper Salmon River basin. These projects have been coordinated with the local communities and water users through the Upper Salmon River Basin Watershed Program and predecessor programs, including the model watersheds. Furthermore, the Snake River Water Rights Agreement of 2004 contemplates the development of additional conservation plans for other upper Salmon River basin watersheds. Accordingly, the draft Comprehensive State Water Plan under revision by the IWRB contains policies for the Salmon River basin that focus on the protection and restoration of instream habitat for ESA-listed species through voluntary participation in conservation programs.

Because of the ESA-listed species recovery efforts in the upper Salmon River basin, IDWR must determine on a case-by-case basis whether it is in the local public interest to authorize proposed water uses that would further deplete flow-limited stream reaches.

Pursuant to Rule 40.04.c of the Water Appropriation Rules (IDAPA 37.03.08.040.04.c), the applicant has the ultimate burden of persuasion regarding the items that must be evaluated in connection with each water right application. Before proceeding further with your application, IDWR requests you submit additional information about how your proposal invokes any local public interest concerns for ESA species recovery. Within 30 days, please submit any additional information you believe IDWR may need to evaluate and determine the local public interest in the water you propose to divert and use. If IDWR has not received a response from you within 30 days, IDWR will assume you have no comment regarding the local public interest, and processing of your application will resume with the information currently on file. Processing will include public notice and the potential for formal protests by other interested parties. Applications that are not in the local public interest will be denied. If you wish to withdraw your application before it is processed, please notify IDWR in writing.

If you have any questions, please call me at 208-287-4951, or email me at pam.skaggs@idwr.idaho.gov.

Sincerely,

FOR

Pamela Skaggs
Water Rights Supervisor

RE: Application for Permit

Dear Applicant(s):

The Department of Water Resources has received your water right application. Preliminary review of the application indicates that it is incomplete and cannot be accepted for processing. We are returning your application to allow you to complete the necessary items. The required information is described below.

- Item # 3: The Source and County was not provided correctly.
- Item # 12: The Time required for beneficial use of water was not provided correctly. Estimate the time required for completion of work and application of water to the proposed use. The minimum term is one (1) year, maximum term is five (5) years.
- The Fee was not provided correctly. The fee for 0.15 cfs as requested is \$100.

Please correct the items on the application and return it to the address above with the correct fee. If you have any questions, contact me at (208) 287-4942.

Sincerely,

Jean Hersley
Technical Records Specialist II
