You bet Danie. I'm meeting NMID on site next Tuesday to hopefully satisfy their questions so that they will withdraw their protest.

Hi Lori,

Ninemile Creek was originally added as a tributary to application 63-34034 because the application requests use of a shallow well in close proximity to Ninemile Creek (based on USGS quad maps.) Given the additional information that Ninemile Creek is piped in the area of the well and would not be impacted by the request, we can remove Ninemile Creek as tributary on the application.

Thank you for keeping IDWR posted on your negotiations. Please let me know if you have any other questions regarding the application.

Sincerely,

Danie Merriman

Subject: Protested Application 63-34034 (City of Meridian)

Good Morning Danie,

NMID protested application 63-34034. We're in negotiations with their attorney and are trying to reach a resolution. Because water from the well is piped and Ninemile Creek is also buried and piped in this area, NMID would like to know if the Ninemile Creek tributary could be taken off the application? As you recall, the application was not submitted with a tributary, but was added by IDWR because the well was drilled as a drainage well. Thanks for your attention to this matter Danie.

Regards,
Lori
