Re: Lapsed Permit No. 96-9463

Dear permit holder,

On August 7, 2015, The Department of Water Resources attempted to send you important documentation regarding your water right permit that has now lapsed. The certified mailing was returned to our office marked by the US Postal Service as "Temporarily Away" from the address of 8948 Diamond Falls Dr Las Vegas NV 89117-5700. I have also left a message on your phone. Please email or call me back regarding the lapsing of your permit as it is time sensitive.

Attached above are all the documents the Department attempted to mail to you that were returned back by the US Postal Service.

Sincerely,

Darla Block
Technical Records Specialist
