RE: Beneficial Field Exam for Water Permit 63-31308

Dear Mr. and Mrs. Boschma:

I have been asked to perform several field exams in your area during 12-14 August. Current ownership records suggest that you may be the current owners of the property where the above referenced permit was filed. I would like to schedule a time to conduct a water right licensing examination during that time. If this property no longer receives water for irrigation from a well then we may be able to eliminate this water right without the need for a field visit.

Our records indicate that the current water right permit owner is Anchor Development. We have been in contact with them and they have indicated that they have no further interest in this permit. A water right permit is personal property of the permit owner. It remains personal property unless it is assigned to a new owner or owners or if it is licensed to the property. Please call me within 14 days at 208-287-4910 to discuss this water right permit.

I appreciate your attention to this matter and I look forward to hearing from you. Please contact me at 287-4910.

Respectfully,

Clay A. Webster
Water Resource Agent
