RE: Water Appropriation Permit 95-11428

Request for Information

Dear Permit Holders:

In 2010 IDWR issued permit 95-11428 authorizing the development of a right to divert 0.20 cfs of water from Hayden Lake within Lot 2 (SE $\frac{1}{4}$ NE $\frac{1}{4}$) of Section 15, Township 51 North, Range 03 West, B.M., for domestic and fire protection uses.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that you have met the requirements for establishing a water right. If you have not developed a beneficial use of water from Hayden Lake within the development period authorized by your permit a license cannot be issued. Once the development period authorized by your permit expires, your permit cannot be retained to cover future development of the resource.

During the In-House License Review, IDWR personnel were unable to confirm that domestic use occurred on your property during 2015. If you believe a water right license for domestic use should be issued to you, please supply information to demonstrate that you established a beneficial use of water for domestic use in accordance with Permit 95-11428. This information may include but are not limited to photographs of the domestic hook-up to the home or trailer area, pictures of the home, and other evidence of the use of the water delivery system.

Please provide the information requested by September 14, 2015.

Please mail the information to IDWR, C/O Danielle Favreau, to the address on at the top of this letter. If you would like, you could email the information to Danielle.Favreau@idwr.idaho.gov.

If I do not receive the requested information or have been contacted by you by September 14, 2015, I will take action to void your permit under the provision of Section 42-219(8) of the Idaho Code.

If you have any questions regarding proof of beneficial use, please contact Dan Nelson at 208-287-4800.

Respectfully,

Danielle Favreau
