RE: WSB Request for Release of WR 63-33992

The Department of Water Resources received requests to release WR 63-33992 from the WSB on Oct 17, 2014 from Albert J. Mendonca and Kelley Mendonca. Upon review of these rights. I found that right 63-33517 had portions of this right leased into the WSB upon being split from 63-32445 in August 2012 for an indefinite period. This right was in the bank from a lease acceptance letter dated Aug 23, 2005 for WR 63-31845. This was the result of a split from WR 63-31794.

63-33992	0.02 cfs	6.8 af	NA	1.5 acres

63-33517 is rented through 2015. 63-33992 can be released from the bank we will also have to release 63-33517 at the end of the rental and the portions of 63-33835 leased under WR 63-31794 (Per letter dated Nov 4, 2011). Water Right 63-33517 does not match the lease documents, due to splits that have occurred. This action will prevent the enlargement of the leased acres under 63-33517 and 63-33835 which is leased under both rights.

This release should not effect the following lease
