RE: RETURNED APPLICATION TO LEASE WATER RIGHT NO. 37-159D TO THE WATER SUPPLY BANK

Dear Applicant:

The Department of Water Resources (Department) conducted a cursory review of your application to lease a water right to the Water Supply Bank (Bank). Based on that review, the Department cannot accept water right 37-159D into the Bank and is returning your application.

Bank rules, IDAPA 37.02.03.025.06.a and b, set forth the following in determining whether to accept an offered water right into the Bank:

Whether the applicant is the current owner, title holder or contract water users of the water right proposed to be transferred to the Board's water supply bank or has authority to act on behalf of the owner.

and

Whether all the necessary consents have been filed.

Information from the Bureau of Land Management office in Boise and county records indicate that you do not own the land at the proposed lease place of use and may not own the associated water rights. Ownership and consent complications prevent the lease application from being processed at this time.

Because these deficiencies were discovered during a transfer you filed (Transfer No. 79984) and not much time was spent on evaluating the lease application, you are eligible for a refund of your lease fee. Please expect a refund within the next 30 days. If you acquire information or the proper consents you may re-file your lease application.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right form. This and other water right forms are available from the Department's web site at www.idwr.idaho.gov.

If you have any questions, please contact me at (208) 287-4944.

Clay,

RE: Water Supply Bank Application: 37-00159D, Jack W. Flammer

Flammer made an attempt to place 37-00159D in the Water Supply Bank (WSB) pursuant to an application on 07-30-2010. IDWR denied that application on 06-24-2011 (see attached) because he didn't own most of the place of use (i.e. BLM land).

It is my understanding that Flammer is making another attempt to put all or a portion of 37-00159D into the WSB in conjunction with Transfer #79984, although there is no application scanned to your website. BLM has protested the transfer (see attached).

Flammer managed to establish 37-00159D in trespass on BLM land therefore BLM would not cooperate with the prior application to the WSB. The same would hold true if there has been another application to the WSB. BLM land described in 37-00159D is not irrigated nor has it ever been.

RE: APPLICATION TO LEASE WATER RIGHT NO. 37-159D TO THE WATER SUPPLY BANK

Dear Applicant:

The Department of Water Resources ("Department") has completed its review of your application to lease 37-159D to the Water Supply Bank ("Bank"). Based on that review, the Department cannot accept water right 37-159D into the Bank. The reasons are described below.

The Water Supply Bank Rules (also known as IDAPA 37.02.03) provide criteria to be considered when determining whether to accept a water right into the Bank. One of the criteria for consideration is that submitted with the completed application shall be proof of current ownership of the water right (IDAPA 37.02.03.025.02.b). A review of taxlot data indicates most of the irrigated place of use (POU) under water right 37-159D is owned by the Bureau of Land Management. I have contacted the BLM to make them aware of the situation and they are currently considering the situation. Until we have proof of current ownership, we must deny your application to lease to the Bank because it does not comply with the Water Supply Bank Rules. I have enclosed a change of ownership form in case you need to file one to split the property you own from the rest of the water right.

Please note that a water right is not protected from forfeiture unless it is accepted into the Bank or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may also consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right.

If you have any questions, please contact me at (208) 287-4907.

Sincerely,

Monica Van Bussum

5. Service telephone no.

6. Basis of protest (including statement of facts and law upon which the protest is based).

Transfer No. 79984 seeks to change source, point of diversion (POD), place of use (POU). A portion of the existing right (37-00159D) describes BLM land as a POU for an irrigation purpose of use (T03N, R18E, S08, SWSW (2.0 acres)). Irrigation of BLM land is not authorized. The transfer leaves 1.2 acres on BLM in trespass. BLM land has not historically been irrigated, therefore there is no existing beneficial use on the 2.0 acres of BLM land to transfer. The SRBA partial decree was issued 06-02-2010, therefore all periods of non-use apply for forfeiture due to non-use purposes are available.

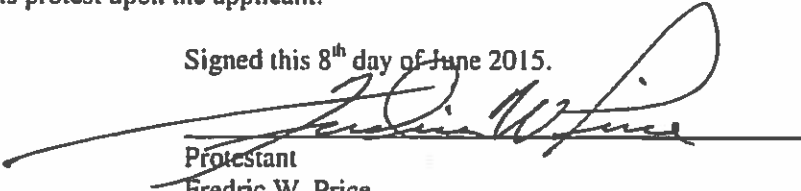

7. What would resolve your protest?

BLM's protest can be resolved by:

- 1) Amend transfer to exclude federal public land from the POU.

I hereby, acknowledge that if I, or my designated representative, fail to appear at any regularly scheduled conference or hearing in the matter of which I have been notified at the address above, the department may issue a notice of proposed default against me in this matter for failure to appear. I also verify that I have served a copy of this protest upon the applicant.

Dear Mr. Flammer:

This letter is in follow-up to the issuance of the patent to the Magic Triangle LLC pursuant to the Color-of-Title Act. The remainder of the improvements located on the south side of the your lot associated with 113 and 114 Magic Mountain Road need to be removed from public land. The Bureau of Land Management (BLM) is interested in working with you to resolve this issue. The BLM is requesting that the improvements be removed by June 30, 2013. Periodic inspections will be conducted within the area to ensure compliance. It would be appreciated if you could contact the BLM when the improvements have been removed.

The BLM is also requesting that water right 37-159D be modified to remove the public lands from the place of use. You had spoken to Tara Hagen, of my staff, last summer regarding this issue and stated that you were working with Mr. Jim Speck to resolve the issue. Please notify the BLM of all correspondence regarding the removal of public lands from the place of use.

If you have questions or concerns please contact the Shoshone Field Office at (208) 732-7200. Please refer to the Gimlet Survey in all contacts with the BLM concerning this action.

Sincerely,

Codie Martin

Re: Jack Flammer 37-159D

Dear Mrs. Palmer:

Jack Flammer owns water right 37-159D and desires to lease a 2.6 acre portion of this water right into the Water Supply Bank. It is proposed to lease the 2.6 acres into the Water Supply Bank for the 2015, 2016, 2017, 2018 and 2019 seasons.

A transfer application is being submitted to the Southern IDWR office to correct the place of use and update the POD.

Attached to this letter is a letter from the United States Department of the Interior Bureau of Land Management stating that the BLM would like to see this water right moved off of public land.

Please copy our office on all correspondence regarding this application. Thank you for your assistance and if you have questions or comments, please don't hesitate to call.

Sincerely,

Greg Sullivan, M.S., Engineer
