Re: Application for Transfer of Water Right – Point(s) of Diversion

Dear Agent,

Enclosed is an Application for Transfer of Water Right – Point(s) of Diversion with attachments, for the City of Sugar City, Idaho. Also enclosed is a check in the amount of \$900.00 to cover the filing fee.

On August 18, 2008, The City of Sugar City filed Application for Permit No. 22-13886 for an additional 6 cfs to sustain city growth. The Application was protested by A&B Irrigation District, Burley Irrigation District, Twin Falls Canal Company, North Side Canal Company, and Milner Irrigation District. A mitigation plan is currently being prepared for that Application to mitigate for any injury to other water rights under separate cover.

This application proposes to add two wells to the current municipal water system. They will provide more consistent pressure with better distribution. If the above permit is approved, the wells will then be used to supply more water to the City.

Thank you,

A handwritten signature in black ink, appearing to read "Chad Jensen".
