RE: Application for Water Permit No. 63-34063

Dear Mr. and Mrs. Smith,

I received your inquiry earlier this week regarding the status of your application for permit to irrigate five acres on your property. I have reviewed your application and forwarded it to our clerical staff for advertising. It will likely be advertised the first two weeks of August.

One item of note is a well drilling permit upgrade fee. Well Construction Rules IDAPA 37.03.09.045.05.b requires the difference between the lower drilling permit fee originally paid (in this case \$75 for your domestic well) and the larger drilling permit fee required for uses requiring water right authorization. After July 1, 1996, the fee for drilling a well requiring water right authorization was set at \$200. Per your well log, your well was drilled in August of 2009. The upgrade fee of \$125 will need to be submitted.

The Department will not hold processing your permit application pending receipt of the well upgrade fee. This letter is meant as informational that the fee will be needed before a license can ultimately be issued. If you have any questions, please call me at (208) 334-2190 or email at nick.vandyke@idwr.idaho.gov

Sincerely,

Nicholas Van Dyke
Sr. Water Resource Agent
