Re: Statement of Completion for Permit No. 25-14379

Dear James,

Proof of Beneficial Use is due for Permit No. 25-14379 on August 1, 2015. As we have discussed with M & B Investments, LLC, and the system operator for Sunbrook Estates, we have a concern about condition #6 on the approved permit. The condition requires a lockable device to be installed and maintained on the diversion works.

Sunbrook Estates has two domestic water rights, permit no. 25-14163 for domestic in-house use only and permit no. 25-14379, which provides for domestic irrigation of the same homes. Both permits are diverted from the same two wells within the subdivision and deliver water for both in-house use and domestic irrigation through the same water supply system. If a lockable device were used on the system, it would also restrict the in-house use from being delivered.

We respectfully request that condition #6 requiring a lockable device be removed from the permit. Enclosed is the Statement of Completion for permit no. 25-14379, along with the filing fee of \$100.

Thank you,

A handwritten signature in blue ink that reads "Kristin Moore".
