RE: Ownership change of water right 22-7064B

Dear Ms. Barg:

Please find the enclosed Notice of Change in Water Right Ownership application and supporting documents, transferring the water rights from the name of my deceased mother, Beulah Ricks Blaser, into that of the new entity that now holds the land, BRBFT Farm, LLC.

My mother passed away in February 2012, and I and my sister were named as personal representatives and co-trustees of her living trust. During her lifetime, my mother transferred her farmland into the trust, but never formally changed the name on the associated water rights. In the meantime, since her death, the trust has created an Idaho limited liability company to hold the land and has transferred the land to that entity. I was only recently made aware of the outstanding need to re-assign the water right also to the LLC.

Per instructions given to me by Allison of your office, I have included the following items to accomplish the transfer:

1. completed Notice of Change of Water Right Ownership form
2. current print-out of water right record
3. aerial photograph marked with point of diversion and area of use.

I also include the following documents evidencing my authority to act, along with evidence of transfer of the land to the LLC:

1. copy of pertinent portions of my mother's will:
 1. naming of myself and sister as personal representatives
 2. showing that residual estate transfers to the Beulah Ricks Blaser Family Trust
2. copy of certificate of death of Beulah Ricks Blaser on February 11, 2012
3. copy of pertinent portions of the Beulah Ricks Blaser Family Trust document dated October 14, 1991, naming myself and sister as co-trustees
4. copy warranty deed transferring farmland from trust to BRBFT Farm, LLC on February 13, 2013

I also have enclosed a check in the amount of \$25 as filing fee.

Your attention to this change of ownership is very much appreciated. Please contact me at the number or email address included on the transfer form if you require additional information.

Sincerely,

Jared R. Blaser
