Dear Darla,

Thank you for the reminder to send you the "Statement of Completion" for my property in Gem County located off Sand Hollow Rd. referred to as "7 Summits".

We have completed the water development as the permit application is stated.

I travel much of the time, so if we can satisfy your needs to confirm this Statement of Completion without an onsite meeting with me, it would be appreciated.

You may feel free to call Gene Wright of Coonse Well Drilling & Pump who commissioned the system. I can also arrange for you to speak with Brad Little's ranch manager, Don Steward to confirm that he is grazing cattle on my property.

For documentation, I have attached agreements, invoices paid and a picture of the flow meter installed at the water well.

- Picture of flow meter showing 125 gpm (0.28 cfs) witnessed by Gene Wright, Coonse Well Drilling and me. Note: This was not required; however, I installed for my own purposes
- Coonse Well Drilling & Pump invoice for water system to prove system was installed
- Idaho Power invoice (example) to prove system is operating
- Dennis Phipps Well Drilling Drillers Report and invoice to prove well was drilling & permitted
- Agreement with Little Land & Livestock Company / Little Enterprises

Enclosed, is payment for the \$100 fee.

Should you have questions, please send an email or if after July 8, feel free to call my cell (see below).

Sincerely,

Ron Mayhew
