RE: Permit No. 63-33904

Dear Permit Holder(s):

The Department received your request for extension of time on June 29, 2015, requesting an extension for two years in order to complete the project and put the water to beneficial use.

While reviewing your extension request, I note that the form submitted was submitted with an electronic, or digital signature. Electronic signatures are not acceptable signatures by this Department at this time. The Department is unable to accept your extension request without your original signature.

I am returning your original extension request, and ask that you sign the form then return it to me within **15 days** from the date of this letter. Upon receipt of the signed form the Department will be able to process your extension request.

If you have any questions, please feel free to contact me at 208-287-4945.

Sincerely,

Darla Block
Technical Records Specialist

REQUEST FOR EXTENSION OF TIME

To provide additional time in which to submit proof of beneficial use for a water right permit

The Idaho Department of Water Resources will consider this form a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code, in which to complete development of a water right and file proof of beneficial use of water. There is a **FILING FEE** of **\$50.00** to be included with this form when filed with IDWR.

Permit no. 63-33904Date proof is due July 01, 2015Name(s) of permit holder(s) Koontz Wagner Custom Controls Holdings LLCMailing address 20394 Pinto LaneCity CaldwellState IDZip 83606Telephone no. (208) 649-1710Email cknudson@koontz-wagner.com

Describe what work has been completed toward the development of this water right:

If no work has been completed, show "none".

This is a preexisting well and domestic water system for use at a preexisting facility that did not have a proper water right permit. Getting this permit as well as the conversion from a non public water system (PWS) to a IDEQ approved PWS has proven to be a challenge mostly due the the IDEQ requirements. The work that has been done related to this project include engineering, PWS O&M Manual, and now in the final stages of submitting the required TFM document to IDEQ.

Costing \$ 15,000.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

There has been several delays, mostly related to the PWS requirements set for by IDEQ requiring engineering and a Technical, Financial and Managerial (TFM) documentation. This TFM document should be complete and submitted with 60 days. After IDEQ approval, the PWS can have the needed upgrades done including having a flow meeter installed making the beneficial use inspection more meaningful.

Permit holder(s) request an extension for 2 year(s).

ACTION OF THE DEPARTMENT OF WATER RESOURCES

The Department has reviewed the explanation for delay and concludes the reason(s) for delay meets the requirements for approval of the Request for Extension of Time as provided by Section(s) 42-204 and/or 42-218, Idaho Code.

☐ **IT IS HEREBY ORDERED** that the permit is **REINSTATED** with the priority date advanced to _____, 20____.

☐ **IT IS HEREBY ORDERED** that the above request for extension of time is **APPROVED**, and the time within which to submit proof of beneficial use is extended to _____, 20____.

Signed this _____ day of _____, 20____

Jeff Peppersack, Chief
Water Allocation Bureau
