
MEMORANDUM

TO: FILE 74-16009
FROM: DANIELLE FAVREAU
SUBJECT: POD AND POU
DATE: JULY 9, 2015
CC:

The Point of Diversion (POD) for 74-16009 was only described to the 40 acre tract on the permit. During the field exam, the POD was placed in the SWSESW of 21N23E19 although it is very near the SESESW.

During the field exam, an amendment was determined to be needed for the description of the Stockwater Place of Use (POU). The signed permit issued by the department and sent to the permit holder described the Stockwater POU in the SESW of 21N23E19. Upon discussions with Dan Nelson, the signed permit is the official document of record, regardless of information on the application. An amendment is required as the POU was confirmed in the SWSW of 21N23E19.
