Re: Evaluation of Sufficiency of Information Submitted

Transfer proposes combining three surface water rights 37-59D (0.38 cfs), 37-973 (2.0 cfs) and 37-344A (4.0 cfs) and creating a new 793 acre permissible place of use on an existing farm located approximately 3.0-4.5 miles west and 1.0-2.0 miles north of the HWY 75 and Railroad intersection in Shoshone. Transfer will also correct the legal descriptions of two existing diversions on the Little Wood River. (No actual physical changes will occur.) In total, the combined water rights will divert up to 6.38 cfs for the irrigation of 301.9 acres within the new 793 acre permissible place of use.

The properties and points of diversion are located within Water District 37 so water master comments will be required. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, review of the transfer application found no cause to require public notice. Recommend no advertise.

- **Authority to File:**
The applicant is listed as the current owner of water right 37-59D, 37-973 and 37-344A according to IDWR records. Deeds were submitted with the application showing Barbara Farms LLC owns the farm.
- **Water Right Validity:**
Water right Rights 37-59D, 37-973 and 37-344A were partially decreed in the SRBA on April 30, 2007. Recent aerial photography indicate the acres are being irrigated.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**
None Anticipated
- **Effect of the Agricultural Base of the Area:**
None Anticipated

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Subject: Transfer 80108 Barbara Farms

Hi Kevin,

I am processing Transfer 80108 in the name of Barbara Farms (Fred Brossy). We are not going to advertise this application because there will be no physical changes to the system. The purpose of this transfer is to create a permissible place of use to allow flexibility to irrigate various lands within a new 793 acre PPU and rotate acres annually as needed. Additionally the transfer corrects the legal description of existing diversions (no physical change of existing diversions). I would appreciate your comments.

Thank you,
Jana
