ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, the lease term expires, or upon request from the lessor to change the term of the lease, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed.

6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season.
 - b. If a change in ownership is processed by the Department during a rental season, rental payment will be made to the person or entity who is the lessor of record at the beginning of that rental season.
 - c. New lessor(s) of record will receive payment after the following rental season.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
13. Use of this right is combined with water from South Boise Water Co.

MEMORANDUM

To: Water Right No. 63-27214
From: Emalee Rushing
Date: 6/15/2015
Re: Review of Application to Lease Water Right to the Water Supply Bank

PURPOSE/NARRATIVE: On December 31, 2014, the Department received the application to lease a portion of this water right into the WSB from 2015 – 2019. BSU seeks to lease 13.7 acres of their 43.7 acre PPU. Per a phone conversation with Roxanne Brown of SPF and emails from Susie Seltzer of BSU, GIS Map 2 as identified in the previous application accurately depicts the current irrigation within the 43.7 acre PPU.

AUTHORITY TO FILE: The application was submitted for Boise State University by Suzanne Adams who lists her professional title as Controller.

WATER RIGHT VALIDITY: This water right has been in the WSB since 2009.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is being proposed.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: N/A

Note: See the March 8, 2011 Memo to File for more detailed review.

Hi Emalee,

I understand that you spoke with Roxanne Brown today regarding our water rights application. She contacted Tim this afternoon to let him know that she has reviewed the maps sent by him to you. She asked that we let you know that the map titled "GIS Map 2" does represent current irrigation use of 63-27214. We would like to request that you use GIS Map 2 as an attachment to the current lease application.

Please let me know if you have any questions or need anything further from us.

Thank you,

Hi Susie,

We usually give a 14 day response timeframe and then we return the applications. I did not do so in this case as it appeared that BSU wanted to put the same idled acres back into the bank. We do require a map of the idled acres. Please call if you have questions.

I am reviewing BSU's application to lease a portion of water right 63-27214 back into the Water Supply Bank. The map you submitted with the application does not depict the portions of the water right that will be idled. I see from the previous application that maps were submitted. I have attached them for your review.

GIS Map 2 depicts the entire place of use for this water right as well as the 30 acres of irrigation. Does GIS Map 2 accurately represent the 30 acres of irrigation?

If not, please submit a map which depicts the portion of the water right that will be idled.
