Subject: RE: Southwest Irrigation District Lapsed Permit Nos. 01-10566, 45-14183 (01-10572)

Jaxon,

I received the information you submitted and may have some questions after reviewing all the documents. I want to remind you that when the permits were lapsed the Proof of Beneficial Use forms and fees were returned to Southwest Irrigation District and need to be resubmitted with the current information in order to be timely within the 60 day period following the lapse notice on April 20, 2015.

Please resubmit the forms and appropriate fees to the Department as soon as possible to avoid missing the 60-day lapse window. This can be done at our Eastern Region office if more convenient and to insure the quickest received and receipted date.

I will be contacting you soon.

Pam

Hi Pam,

I apologize this is so late in getting to you. I thought there were three points of diversion when there is actually only one. So, I dug in and finally got all of the information I have. The attached PDF shows our diversions based on WD 01's records and divides the usage of this right into Irrigation and Recharge. The shapefile contains all of those rights where this water can be delivered for our conversion program associated with water rights 01-10566 and 01-10572. Take a look at this and let me know what your questions are and if we can get you anything else.

Also, for your info, we have the capacity to use the volume of this right, but the priority on the river has not allowed us to maximize usage. We are currently adding some recharge locations that will allow us to maximize the use during short periods when the right is in priority.

Thanks,

Jaxon
