RE: Water Right No. 92-7208

Dear Water Right Holder:

The Idaho Department of Water Resources was recently made aware of an error in the legal description of 4 of the 21 points of diversion for water right 92-7208. The application and the permit for this license originally described several points of diversion including 4 points of diversion in Section 36, Township 43 North, Range 1 West. A subsequent field examination confirmed that among other points of diversion, there were 4 points of diversion in Section 36, Township 43 North, Range 1 West.

When the license was issued, the 4 points of diversion in question were described as being in Section 36, Township 43 North, Range 1 **East** instead of Section 36, Township 43 North, Range 1 **West**. A review of the file has determined that the license was issued with the incorrect legal description for these 4 points of diversion. We have been asked to correct the legal description to ensure there are no issues with your claim on this water right in the Coeur D'Alene-Spokane River Basin Adjudication.

We are sending this letter to inform you that we plan to move forward with correcting this license. We would like your impute on correcting the legal description on the 4 points of diversion. If I do receive any comments on this matter by June 29, 2015, we will move forward with issuing an order to correct the license as shown above.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Daniel Nelson
