

MEMORANDUM

Date: June 29, 2015
To: Transfer 80060
From: Scott Bergendorf
Re: Transfer Analysis

Applicant proposes to add a point of diversion and change the place of use for water right 25-4204. Applicant seeks to drill a new well and rearrange 1 acre of irrigation on the property. The legal description will not change for the place of use.

Authority to File:

The applicant is the current owner of the water right per IDWR record and owner of the proposed place of use per Jefferson county taxlot records.

Water Right Validity:

Water Right 25-4204 was decreed in 2005. Review of aerial photography indicates regular use of the water rights. Forfeiture is not an issue.

Injury to Other Water Rights:

Inside the ESPA and within WD 120. Existing and proposed wells are in the same cell therefore no ESPA analysis is required. Transfer was advertised and there were no protests. The watermaster does not oppose the transfer.

Enlargement of Use:

The proposed change will not result in enlargement of use. Neither rate nor acres will increase as a result of the transfer.

No issues identified.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Transfer Analysis
