MOORE, ID 83255

Dear Mrs. Stevenson,

The intent of this letter is to inform you that an Application for Transfer has been filed on water rights 34-2383, 34-14050, and 34-14052. At this time, the Department of Water Resources' database lists you as the owner of the water rights. The Application for Transfer asserts that the Department's database contains an error, and that two acres of the water rights are owned by Lone James Huelsman and Barbara Lynn Huelsman, the transfer applicants.

The application proposes to change the point of diversion for two acres of right 34-2383. As a result of the point of diversion change, the transfer defines the place of use for two acres of the three stacked water rights onto the Huelsmans' land. A copy of the transfer application is enclosed for your review.

Please note that the water right covers 36 acres in the SWSW of Section 16. The SWSW of Section 16 contains 40 total acres. According to Butte County tax lot data, you own 35 acres, and Lone James and Barbara Lynn own 5 acres.

At this time, IDWR's database does not clearly define which 36 acres in the SWSW of Section 16 the water right covers. In speaking with you, I know that you believe the right covers the entirety of your 35 acres. You have the right to protest this application, and a protest form is enclosed for your consideration.

If you do not submit a protest by July 27, 2015, I will assume that you have no comment on the transfer, and I will proceed with the approval process.

Sincerely,

Cooper Fritz  
Water Resources Agent
